Last year we brought you \$391,623,376 worth of carpeting. You've got a lot riding on us.

We moved a lot of carpeting in 1975. We estimate that the market value for the carpeting shipped amounted to \$391,623,376.

Economy is the biggest reason carpeting companies and so many others choose rail. Consider these figures for the thousands of things shipped by rail each year. The average cost per-ton-mile by truck is three times as much as by rail. Air shipping is forty times the price.

And the fuel crunch has made rail-road efficiency more than just a matter

of dollars and cents. It's a matter of delivering the goods with the smallest possible use of fuel.

When you put all this together with the reliability of rail shipping you have a good idea why there's so much riding on us. And why you need Southern.

So next time you have a carpet delivered to your house, remember we probably delivered it first.

How to fight the high cost of hot water.

Many people don't know that, next to heating and cooling, hot water is the highest priced item you'll find on your energy bill.

Here are a few ideas to help you keep your costs down:

1 Use cold water in your clothes washer. It'll do a good job on everything but diapers or heavily soiled clothes, and it only costs you about 1¢

for the average load. When you use hot water, the cost is about 25¢ a load.

2 Take showers instead of baths. Spending five minutes in a good hot shower costs you about 20% less than a good hot bath.

3 When you're shaving, fill the sink. Don't let the water run. That way, you'll use only a fraction as much hot water.

4 Fix all leaky faucets. One drip a second means 2,300 gallons of

water wasted in a year.

5 Use the dishwasher for full loads only. It uses about 12 gallons of hot water, regardless of the size of the load.

6 Don't use hot water for running your garbage disposer. It was designed to run on cold.

7 Ask for your copy of our free 24-page booklet, "How to Save on Your Electric Bill", and a list of other available literature on energy conservation, at any CP&L office.
