QUIZ KID
Reg. 17.95
\$13.88

How can you teach a kid something he hates? Especially math? Try Quiz Kid. The learning calculator made just for kids. It teaches arithmetic and it checks homework better than any other calculator around. Because it only tells you if you're right or wrong, but never gives the answer. The answer is left up to your child. And, Quiz Kid comes with a thirty-three page Quiz Book full of puzzles, games and problems that can keep your child happy and occupied for hours.
