SUNDAY, NOVEMBER 26, 1916

REGULATE AUTO LIGHTING

Some legislation should be passed by the General Assembly in regard to the kind of lights that automobiles shall be permitted to use. There is no doubt but that the blinding lights now used by so many automobiles are very dangerous to travel at night on the public roads.

This question has become so serious that it is being agitated all over the country, and manufacturers of automobiles are giving it serious consideration, and many legislatures are considering legislative action regarding it.

THE LABORER IS WORTHY OF HIS HIRE

This subject is as old as time, very nearly, and was written in an age when wages must have been very low from a monetary standpoint. A few pieces of silver would suffice to meet the needs of a fellow then. Now it is different.

Every vocation of life has been affected by recent advances in the price of articles necessary for man's earthly existence. It is requiring the active and fertile brain of man to scheme around to make ends meet.

The employer, whether a manufacturer, merchant, board of directors, board of aldermen, stewards, deacons or elders, should take stock of those who are looking to them for a livelihood, and see how they are faring. Should your business be on a prosperous basis, divide your profit with them, that they may have a chance to enjoy a small portion of the fruits of their labor, without straining a point to make ends meet.

Are you paying your pastor the same now that you did three years ago? If so he is having a hard struggle to break even. This class of people have lots of calls on them for their money. They attend so many meetings, and its a dollar here, and two dollars there, that it does not take long to cut in on their stipend.

Take stock, good people, and see if those who are working for you are being looked after as they should.

OUR NATIONAL THANKSGIVING DAY

Among other distinctive features of American manhood is that of our National Thanksgiving Day. This day was first established by our Pilgrim Fathers in the year 1621. At first it became a holiday in New England, replacing Christmas as a family festival, the custom having soon spread throughout our great country. During the days of the Revolution, Congress annually appointed a day of thanksgiving. After the adoption of the Constitution, Washington continued the custom. Since the year 1863 the last Thursday in November has been the day annually proclaimed as

the National Thanksgiving Day.

While history gives the year 1621 as the establishment of a Thanksgiving Day, it in reality had its inception a year earlier, and on the 21st day of December, when after a rough voyage lasting over two months the little band of one hundred and two exiles, tossed, seasick, bruised and bleeding from the hardships of the journey, left the stifling cabin of the eventful Mayflower, and touched shore at Plymouth Rock, where their blood stained feet have rendered sacred every foot of ground. They have intended to enter the Bay of New York, but a strange, though unerring, providence led them across the sea to the wind-swept and snow covered sand mounds of Cape Cod. It was a bitter cold day. It sleeted, snowed, and rained and froze. They were drenched with the waves and chilled to the marrow. Disembarking upon the flat boulder of Plymouth Rock, their first act was to return thanks to God for their safe arrival. Like their Lord whom they loved, they had been pilgrims and strangers on the face of the earth, and while they were still strangers, and like Father Abraham with no continuing city, and with the icy waves flinging frozen spray upon them and the dark woods shutting them in and hiding from them the dangers of savage perils; they gathered into a little group and thanked God for a place where they could enjoy the privilege of worship in their own way. Little did they dream at that time of the precedent they were outlining to the modern world! Yet nevertheless this was the incipient moment of our National Thanksgiving Day as we now have it.

If these Pilgrims, sick, weary with hardships, tried with poverty, cold and perils found reason sufficient to give thanks to God, how much more shall we, their heirs, children of so great a heritage, who are blessed with civil and religious freedom, find cause to assemble and offer thanks to Him who hath made it so? We are builded upon the mountain tops, and civil and religious liberty are the tall twin peaks which lift our American manhood far in the ascendancy of all other types.

POINTED VIEWS

The report that J. P. Morgan is at the head of the fight against the Eight-Hour law will move those Western States glad that they voted the way they did.—Rochester Herald.

With the new organization of "dry" Democrats represented in the Second district by Pink East there is every sign that dawn is breaking.—Indianapolis News.

The country has averted a revival of the old query: "What shall we do with our ex-Presidents?"—Washington Star.

In view of the high cost of living, wool growers declare everyone with an acre of ground should raise at least one sheep. To keep the wolf from the door, so to speak.—New York Evening Post.

Under the new law a Virginia gentleman may order one quart of whiskey a month. And in Virginia, where they drink rye whiskey, that is only four drinks.—Louisville Courier-Journal.

Did anybody ever hear or read of such voluntary wage increases in the good old days of Mark Hanna, when the promise of big wages elected Republican Presidents?—New York World.

Of course the clerks in the ladies' shoe department are harder worked than they used to be, because there is so much more of each lady to be fitted.—Galveston News.

NOTICE

Beginning Sunday, November the 26th milk will be 12 cents per quart, and cream 60 cents per quart. W. B. PATE, paid.

A newspaper report says that a woman guest was ejected from a hotel for "kissing her husband in the corridor." This should be a warning to all wives to insist on kissing their husbands in the lips.—Washington Herald.

OBSERVED

By JAY BEE DEE

Men of New Bern, of whatever denomination you be, do you not wish to spend an hour this afternoon to good advantage? The men's Bible Class, presided over by Rev. Mr. McWhorter is worth a visit. They are now in the midst of a blue and red campaign, and should you go, select your color and be a regular attendant. I am on the red side, and we need some recruits, so come up to Centenary this afternoon at 3 o'clock and listen to a nice twenty-minute talk, hear a nice orchestra play and enjoy a short season of good singing.

They say those Shriners are awful for swiping souvenirs of the different meetings they attend. They never saw any of those dummy policemen before that does duty on the busy corners, and they thought they wanted it, so they purloined it, placed it in an out-of-the-way place, with the intention of making a get-away at the departing hour, but lo, and behold, they either forgot it or thought better of it, as the "red" headed cop was found and is doing duty at the same old stand.

A gentleman entered the five and ten cent store yesterday morning and asked to be shown to the fur department. Cold weather we are having, will drive a person to do some funny things.

VOICE OF THE PEOPLE

Editor of the NEW BERNIAN:

Lard at 22 cents per pound, flour at five cents per 16 ounces. As I sit in ecstasy pondering over the paid slips of my week's grocery bill the question confronts me (as a laboring man) what are the chances for a livelihood if things keep advancing. Surely we have got to have the flour and the lard will certainly have to be mixed with the flour. I have decided that if Mr. Fitzgerald, of New York, who has started the stunt to lower the prices of life's necessities, succeeds in his undertaking he will have accomplished a feat that deserves the sincere thanks of every man and woman in this broad land who is dependent upon his or her weekly salary for existence. A peruse of the advertisements inserted in the Atlanta papers reveals the fact that the high price wave has not hit that berg yet, and I am at a loss to know why such blooming figures are expected of the people of this section unless it is because the policemen and street hands have had an increase in salary and this is used as an index to prosperity. Surely the prosperity wave has steered clear of my coast. Another conclusion has been substantiated, that where the laboring man has had to keep his hooks away from the high grade of ham, it is now incumbent upon him to buy this delicious meat as a real saving. With salt pork at 20 cents per pound and ham at 26 cents he can have a good meal on ham and still have enough gravy left to go in the griddle cakes, thereby cutting down the lard bill. It is also suggested for frying purposes, that ordinary axle grease that can be purchased for ten cents per box be used instead of the high priced lard, as by thoroughly sterilizing the grease it will answer the same purpose, and you will never know the difference by the time the next presidential election rolls around. Also it is said that too much corn bread will produce pelagra, but why not eat corn bread and pass out slowly, for if the high price wave keeps on coming you are sure to be froze out anyway. Do we eat to live or do we live to eat?

ANXIOUS

Editor NEW BERNIAN:

When we learn from the crop estimates of 1915 that the United States is 800,000,000 less in corn and wheat than it was in 1916, it really becomes the duty of the farmer to care better for his agricultural interests. The real farmer should use all the means at reach to increase his crops; not by adding more acres, but by increasing his results by larger crops. This can easily be done by using the winter crops for improving the soil. We have the beans and peas which improve the land in summer, and the clovers, vetch and many such crops that put ammonia in the soil to help build a heavy, richer soil. We can, if we will, add at least half our soils value by turning in cover crops. And there are so many ways this can be done that any man who will care for the increase of his land can soon add twice the value and even more if he will press the means in reach. You may take a quarter of an acre of burr clover and when pigs are a month old, put eight or ten pigs on said quarter an acre and put the same number on land with no green manure and the pigs will double those not fed on green feed and at the end of six or eight months the pigs will double those without the green feeds;

Presbyterian Church. There will be divine services here today at 11 a. m. and at 7:30 p. m. Sunday School at 9:45 a. m. There will be a Thanksgiving service on Thursday at 11 a. m. An offering for the orphans is expected. There will be no prayer meeting at night Thursday.

Tabernacle Baptist Church. Sunday School 9:45 a. m. J. S. Miller, superintendent. Teachers prayer meeting 9:30 a. m., and the teachers and officers are urged to attend this prayer-service preceding the Sunday School hour.

Regular service 11 a. m. The membership is especially urged to attend this service as a letter from Rev. T. S. Hubert, who was called to the pastorate, will be read. The public is cordially invited.

First Church of Christ, Scientist. Services 11 a. m. and 7:30 p. m. Wednesday 7:30 p. m. The subject of the Lesson Sermon today is "Ancient and Modern Necromancy, Alias Mesmerism and Hypnotism, Denounced. Sunday school is held immediately after the morning service.

The reading room which is in the church edifice is open daily from 3 to 5 p. m. The Bible and all of Mrs. Eddy's writings are there to be read, borrowed or purchased.

The public is cordially invited to attend these services and visit the reading room.

Free Will Baptist Church. The series of meetings that have been in progress at the Free Will Baptist church, came to a close Wednesday night, with very gratifying results. Mr. Everett labored very earnestly in this meeting, and there were several additions to the church, while the members have been greatly revived and strengthened. There will be the usual services today conducted by the pastor. At 11 o'clock the subject will be "Lot's Choice." At the evening service the topic of discussion will be "God's First Words to the First Sinner." Mr. Everett is soliciting the attendance of each member in the day's services, also the public is given a very cordial invitation to be present. Sunday School at 9 o'clock; J. F. Robinson, superintendent. Rev. Everett will fill his regular appointment at Bridgeton at 4 o'clock p. m. A cordial invitation is extended to the public to be present.

The lecturer had been describing some of the sights he had seen abroad. "There are some spectacles," he said "that one never forgets." "I wish you would tell me where I could find a pair," said an old lady in the audience. "I'm always forgetting mine."—Chicago Herald.

Wagg—"Even where the tender passion is concerned, competition is a wonderful spur." Wagg—"That's right. Any girl can learn to love a fellow if she thinks some other girl wants him."

and at the end of a few months the land will be improved very much, and the farm will improve as well as the increase of the stock on the farm. Let us think more of improving the land we cultivate and think more of the means in reach for accomplishing this much needed result.
