

CHARLOTTE CHRONICLE.

BY CHARLOTTE CHRONICLE PUBL. CO. Every Morning Except Monday.

THE USUAL PRICE OF THE CHRONICLE is \$10 per year; \$5 per 3 months.

TELEPHONE NO. 186, OR WRITE TO THE CHRONICLE, Charlotte, N. C.

Wednesday, April 24, 1889.

NORTH CAROLINA SOLDIERS' HOME.

The Wilmington Messenger has undertaken to raise \$50,000 for the North Carolina Soldiers' Home.

The Messenger announces, at the threshold of this undertaking, that the offer is made to meet its effort by the donation of five hundred acres of land.

Whether or not now is a propitious time for such an undertaking. THE CHRONICLE is not prepared to say, with any degree of confidence.

Very well, indeed, it is known that there are many men who if properly appealed to, would respond liberally for such a cause; nevertheless, it is greatly to be feared that owing to the poor crops for the past few years,

The Messenger, however, with a dauntless courage and with a conviction of success, has entered on the undertaking; and THE CHRONICLE would dislike above all things to see such a movement in North Carolina fall through;

Had the matter been deferred until the meeting of the State Press Association, and then had a plan matured by that body, which all would support heartily,

In the meantime, however, under the honorable lead of the gallant Messenger, THE CHRONICLE stands pledged to cheerfully lend aid in its power to the most worthy cause of a North Carolina Soldiers' Home.

ANCIENT AND MODERN CITY-BUILDING.

It has been casually remarked on more than one occasion that Rome was not built in a day.

On Tuesday, streets, and buildings, and busy men engaged in trade and speculation, occupied the ground where on Monday, in the language of The United Press correspondent,

It is true, the hypercritical may say that Rome after being built was in many respects superior to Guthrie.

These things are not spoken as a boast over the Eternal City. They merely go to show that the nineteenth century Western boomer can always "get there" on short notice.

The Club will see that the races are the very best that can be had, considering season and section. It would be to the benefit of the retail merchants and hotels of Charlotte to make up a sun to increase the already liberal purses offered by the Club.

THE MAY RACES.

The Gentlemen's Driving Club is making unprecedented preparations for races at the Carolina Park on the 29th and 31st proximo.

These races will draw a large crowd of people to Charlotte. People who attend races have money, and they spend it liberally.

The Club will see that the races are the very best that can be had, considering season and section. It would be to the benefit of the retail merchants and hotels of Charlotte to make up a sun to increase the already liberal purses offered by the Club.

Driving Club has the grit to offer inducements to bring fine stock.

The Charlotte May races will be a grand success under any circumstances.

THE Raleigh Visitor is eleven years old, and it says that the highest expectations of its publishers have been more than realized.

THE Raleigh Visitor is eleven years old, and it says that the highest expectations of its publishers have been more than realized.

The New York papers write of the Albany calling as if it were the Albany stalling.

The Independent Democrat with non-political leanings is apt to boast of his old Whig ancestry.

The Raleigh Evening Call says that Ex-President and Mrs. Cleveland will spend a week at the North Carolina Teachers' State Convention at Morehead City this summer.

The first issue of the Oklahoma Herald, published at Guthrie, Oklahoma, appeared yesterday. We suppose it is a bona fide.

Messrs. Mott, McDonald, Gordon, Donnelly, and Eldins are recommended to try Brady's routine. It is splendid for the headache.

One hundred thousand people are endeavoring to secure homesteads in Oklahoma, while there are only 120 homesteads to be distributed.

The man who goes into the Oklahoma Territory takes his chances along with his Winchester. Poor or rich, the soil of the no longer forbidden land is likely to be selected speedily with a top-dressing of justice and wrong.

Perhaps, after all, the community, thrown together in this wild, steppe-like fashion will turn out to be just as good as the society which grows gradually under a system of selection and the fostering care of experienced statesmen.

That there will be legal conflicts without end is a foregone conclusion. But the amount of bloodshed that is threatened is the worst feature of the situation.

Please remember that real religion today will not consist in wearing a new hundred dollar outfit to church, and dropping a five cent piece in the collection basket.

Violets—the early children of the sun and showers—are showing their little blue heads again, in mute though eloquent appeal for admiration.

You never see a woman look for a pin she drops. That can be accounted for. Her husband finds it when he walks around in his bare feet.

Four hundred subscribers to the Call since last Monday, and \$40,000 for the cotton factory since last Friday. That's business. Let 'er go.

The longevity of the race hardly permits the conjecture that there will be another Medical Convention at Elizabeth City.

Three men planned Birmingham and made it a flourishing city; in the hands of a single man Anniston, Ala., was moulded to her present proportions, and here, surrounded by mines and timber, an infant city is thriving where, two months ago, almost utter solitude reigned.

Nebo City is not even down on the map, but the saw mills work as merrily, the building of two large cotton mills goes on as industriously, and immigrants pour in as rapidly as if it was the oldest established city on the continent.

A company of capitalists have begun the sale of lots already, and it begins to look as if certain gems in the brilliant galaxy of Southern cities had better look to their laurels. Nebo City is on the upward path.

No one here seems to know just exactly what Mr. Vanderbilt is going to do with his large purchases near the city. There is a very great difference of opinion on the subject.

One lot Men's 4 ply Linen Collars at 4 cents each.

Twenty dozen Men's nice Suspenders worth 20 to 25 cents reduced to 10 cents.

You will see from the above prices that we mean business.

Goods sent by Express or Mail can be returned if not satisfactory and money refunded. Call and see us.

Dry Goods, &c.

SHOES. 1,000 pairs of those Pel-ble Goat Button and Lace Shoes, at \$1.00 per pair.

THE Shoe is all solid leather, outer and inner soles. Well sewed—is first-class in every way and is sold regularly for \$1.50.

We open this week one case of corsets—"The Racket"—at 38 cents, and it is a great bargain, sure.

Another splendid bargain to be opened Tuesday is one case of Ladies' Gauze Vests—a regular 25 cent Vest everywhere.

One dray load of Men's, Boys' and Children's Straw Hats, all to go in one lot at 10 cents.

The number is "Legion," as we gather of the best values where price is made by dollars, cheaper and cheaper as the ball of time rolls us into Summer, cutting values at the other end of the line, cutting prices to keep pace at this.

Time brings defeat to many overstocked dealers, and we measure out these credit valuations by the law of dollars. \$1.00—spot cash—takes \$2.00 from the credit concern, and this is the way it is done, and this is just why we can afford to cut prices in the middle and give you as we buy.
