President Wilcon conferred brody after his address to Congress with presentatives came next, Attorney A. Secretary Baker and Secretary Daniels. The conference, it was stated, had do entirely with precautionary steps, and it was made clear that the adinstruction had no desire to take warlike measures unless forced to do so he some act of Germany.

The following specific orders went out during the day:

The White House and White House grounds were closed to visitors for charmed the audience and moved his he best time in many years.

All navy yards and stations were closed to the public until further notice, whne he closed with a tribute to our Officers commanding army posts, arsenals, magazines, coast batteries were Representative, Hon. W. A. Mauney accted to exercise every precaution.

The state, war and navy building was closed to visitors and cards of identification were issued to employes and press representatives entitled to met every interruption with the force

Publication of daily ship movement list, giving the departure and ar- to the fact that there were 611 votrivals of navy vessels, was suspended.

Secretary Daniels said there was no change in the orders of the Atlantic ton side and 397 on the Cleveland

"The fleet will continue maneuvers in the Guantanomo region," he said. Measures of national preparedness taken within the last two years make land side, it was nothing but natural it unnecessary for the war and navy departments to do much work that othtrwise would have to be begun immediately. For the navy a survey of all merchant craft under the American flag and of all small pleasure craft that the majority should have been and power boats has been virtually completed. Guns for the arming of larger as a natural sequence of the merchant ships have assembled at the various navy yards with plans for voters preference in the matter. Gasputting them aboard already worked out. The data of each vessel has been placed on file.

For the army and navy both as inventory of the manufacturing resources and plants of the country has been carried well forward. A text in the constructon of roads in the book and munition manufacturers can be learned quickly and about ready for issue. From it private manufacturers can be learned quickly the steps necessary for the conversion of their plants to war uses.

The counsil of national defense, created last year, already has taken over the co-ordination of industries for war purposes and has worked out in by asking the Legislature's confirmpart its general plans.

Without additional authority from Congress, President Wilson can di- the suit out of court, Mr. Hoey statreet that the regular army be increased at once to its full war strength of 286,000 men and the navy to 87,000.

There is in addition to the national guard, now about 150,000 strong and the full strength of which is 440,000, cannot be required under existing law within four years. The regular army now numbers about 120,000.
