There are to be courses, taught by teachers who have made special study, in Sunday School, Young People's Work, Woman's Work, Soul-winning, and Church Efficiency. There will also be preaching each day at 11:30 a. m. and at night.

CLAIMS FOR DAMAGE FROM MAD DOG BITES

Claims for damages amounting to more than \$600 have been filed by various citizens of the county on account of loss of property by reason of mad dogs roving over the country and biting live stock. Not all of the claims have been paid by the county commissioners and some of them may not be paid in full, but the large amount of damage claimed from the county by reason of mad dogs shows how expensive mad dogs have become in the way of damaging property. According to the law, the owner of a dog that goes mad is responsible for damage done. In cases where the owner is not able to pay or it is impossible to find out who the owner is, claims can be made against the county. The following claims are on file in the office of the Register of Deeds, Mr. R. Lee Weathers: C. A. Eddins \$65; R. M. Dover \$166; J. B. Lay \$69; R. M. Dover \$64; J. B. Bennett \$61.25; S. R. HOTEL MANAGER FOR CLEVELAND

MR. ROSEMOND COMES FROM GREENSBORO

It is Expected that Hotel Will be Ready for Occupancy by July 1st—A Fine Resort Place.

Mr. D. T. Rosemond of Greensboro was secured this week to manage the new Cleveland Springs Hotel and he will arrive in Shelby next week for a conference with the directors to determine the rates to be charged. Mr. Rosemond has had 15 years experience in the hotel business, at one time manager of the Knickerbocker Hotel, New York City. At present he is manager of the Guilford in Greensboro and is considered one of the most popular and capable hotel men in the state, having a wide acquaintance with the traveling public. Already reservations are being made for rooms, many of the would-be guests wanting to come now and stay for the whole season. The hotel will be operated summer and winter and Mr. Rosemond will have complete charge of the management under direction of the directors.

The Cleveland Springs Hotel which cost nearly a quarter of a million dollars expects to be ready for occupancy by July 1st. Carpenters, decorators, furniture dealers, painters, plumbers, landscape men and others are bending every effort to get the finishing touches on so at least a part of the hotel can be occupied by guests.

A well 170 feet deep has just been completed to supply water to the hotel bath rooms, kitchen, etc. A reservoir holding 20,000 gallons has been ordered and shipped and will be put on a 60 foot tower which will give sufficient pressure to fight fires. There will be six fire hose apparatus in the building, together with a number of chemical tanks and fire escapes at the end of each hall.

The building is of red pressed brick, three stories high with 60 bed rooms a basement for servants rooms, an assembly hall, a dining room capable of seating 300 guests, large cement floored kitchen with all modern equipment. Each room has a private bath with tiled floor. The bed rooms are furnished with mahogany furniture and handsome floor coverings. A telephone in each room enables a guest to get direct connection with any part of the country covered by the Bell system.

Right now the finishing touches are being put to the lobby which will have tiled floor, invisible electric lights and the handsomest furniture that the market affords, the chairs, settees, etc. being finish in Spanish leather upholstery. The writing rooms and mezzanine floor are furnished with fibre desks and chairs of the most expensive and exquisite design.

Mr. Leigh Colyer, landscape architect of Charlotte has been busy several weeks beautifying the grounds. All the trees have been trimmed and the underbrush cleaned out. The five different mineral springs will have new houses and enclosures, while walkways covered with crushed stone lead to all parts of the grounds adjacent the hotel. A shallow swimming pool 30x40 feet furnishes recreation for the children while a deep pool built of concrete measuring 50x100 feet will furnish pastime for the grown-up guests. Two tennis courts, a garage and bowling alleys are other sources of amusement and recreation that will be completed when the hotel is opened. Later on it is planned to build a nine hole golf course and a large lake for boating.

Already many applications are coming in from people from all over the country wanting rooms at the hotel. A number of men and women became attached to the wonderful mineral waters about the hotel when it was in operation up to 12 years ago when the old hotel was burned, have come to Cleveland and secured lodging at farm houses near-by in order that they might be benefited by the climate and the water.

Furniture costing \$20,000 is beginning to arrive and is being installed in the rooms as they are finished. All of the rooms on the third floor are completed and it is expected that the other floors will be ready for the furniture within the next two weeks. All silverware, linen, china-ware, etc. were purchased about two weeks ago and are beginning to arrive.
