This was taken by the audience to mean that he would locate in Shelby if a hospital is built.

The audience nearly filled the court house with enthusiastic men and women, a dozen or more of whom were alled upon by Mayor J. T. Gardner presiding, for short talks. All of the physicians present pladged their moral and financial support which is considered the one most important thing contributing to the success of an intitution of this character.

The following committee was appointed to make a thorough canvas of the town and county and secure subscriptions to stock: O. M. Mull, chairman, J. D. Lineberger, C. C. Blanton, A. W. McMurry, O. M. It seems the sense of the leaders that \$60,000 to \$75,000 should be raised which would build and equip a 25 or 30 bed hospital, not expensive in appointments, but comfortable, compact and up-to-date in every particular. After the committee on plan of operation; par value of stock and terms of payment meets and decides these questions, the canvassing committee will set to work and make a vigorous appeal to the citizens of the town and county for the necessary road to Blacksburg has been much imfunds. In speaking of the hospital, Dr. Scruggs who is a native of Rutherfor and well known in this county. said that Cleveland is surpassed by no other county in the state in the intelligence of its citizenship, that he had treated many patients from this county and he had learned to love them and to know that they want and need a local hospital. The big show traveled all over the war area showing day after day to crowds of from 10,-000 to 20,000 soldiers. Name and fame of Mugivan's circus was far and wide in this section who will recall it. This has been a hard year on circuses according to Mugivan. Short products are responsible. "When farmers north, south, cast or west don't get good prices for their products they can't come to see the circus," said Charlie.

"We haven't made any money in weeks and in fact, we have broken that we have played recently we made a little money in five.
