

MRS. MARY WILHELM  
Pittsburg, Pa.

"No matter what I should say about Tanlac, it wouldn't be half good enough," said Mrs. Mary Wilhelm, 716 Mint Way, South Side, Pittsburg, Pa.

"I never dreamed it possible for a medicine to restore me to the splendid health I now enjoy. In fact, I had almost resigned myself to being an invalid, as I could see I was losing weight and strength every day, and no relief was in sight. For three years stomach trouble, headaches and nervousness made my life miserable.

"The first bottle of Tanlac acted almost like magic and it wasn't long until I was so well and strong that I could hardly realize I had ever known a sick day. I am like a different person in every way, eating, sleeping, feeling and looking better than in years."

Tanlac is sold in Shelby by Paul Webb and by leading druggists everywhere. adv.

**BLANK PISTOL CAUSES THE DEATH OF A CHILD**

Morganton News-Herald:  
On Halloween night little Harold Berry, 8-years-old son of Mr. and Mrs. John W. Berry, was playing with a blank pistol which accidentally discharged in his hand. The wound was not considered at all serious and for several days afterwards the child played around as usual. In a day or two he complained of his jaws hurting and it was found that lockjaw had developed. The little fellow made a brave fight but succumbed on Friday, November 11th.

The funeral on Saturday was conducted by Rev. F. A. Bower and interment made in the cemetery. The bereaved family have much sympathy in their loss.

**W**HETHER it's a bird for Thanksgiving dinner or a tankful of gasoline for your motor you will get real satisfaction only through careful selection.

Volatility is important to good gasoline. It largely governs the starting speed of your motor and the richness of the mixture you have to use. For steady power that enables you to creep along in traffic or whirl up steep grades without a lot of gear shifting your motor fuel must have high flame speed and a high rate of pressure development. For economical operation gasoline must give you big mileage per gallon and burn up so completely that it leaves a minimum of carbon behind.

It needed years of refining experience and countless tests to de-

velop a balanced gasoline to meet all these specifications. But it has been done.

"Standard" Motor Gasoline is best not in one or two respects only. Under the most rigid tests covering every feature of motor performance, "Standard" Motor Gasoline stands first.

You can easily prove this. Draw up where you see the familiar "S. O." sign. Test a tankful. Notice the "pep" and power your car has. See how easily it climbs hard hills. Keep tabs on the mileage you get. One quality wherever you buy it, and for sale everywhere.

Do you know that your motor is properly lubricated? You can eliminate any doubt by specifying POLARINE.

**GOV. MORRISON PLEADS FOR THE ORPHAN CHILD**

Along With Other Officials He Asks Presbyterians to Raise 125,000

Governor Cameron Morrison, O. D. Watts, B. R. Lacy, James R. Young, A. W. McLean and James Sprunt, five of North Carolina's most prominent citizens have joined in an appeal to the Presbyterians of North Carolina to support the program outlined for Barium Springs orphanage and beg them not to allow the campaign now in progress for a Thanksgiving offering of large proportions to fail.

The appeal, which indicates the unusual enthusiasm aroused on behalf of the orphanage, is in the form of an open letter addressed to those of the Presbyterian faith in North Carolina and is as follows:

"To the Presbyterians of North Carolina:

"To laymen's committee of the Presbyterian church of North Carolina is making a campaign for \$125,000, to be given at this Thanksgiving for much needed equipment, improvement and maintenance at the Barium Springs Orphans' home. We are familiar with the needs of this home for the fatherless and as Thanksgiving is a time when the needs of all turn towards the children we most heartily indorse this campaign and urgently ask the Presbyterians of the state not to let it fail. Three hundred orphan children are knocking at the doors of this institution and it is utterly impossible to receive them. With the added facilities that this money will provide, many of these children can be taken in and given a chance in life.

"We believe that you will rise to this emergency and contribute every cent needed for this purpose.

"Yours respectfully,  
"Cameron Morrison, A. D. Watts, B. R. Lacy, James R. Young, A. W. McLean and James Sprunt."
