COTTON WAREHOUSE NEARLY COMPLETED

TWO-THIRDS TO BE USED BY CO-OPERATIVES

While it is Privately Owned it is a Licensed State Warehouse and Can be Used by Anyone.

Both our own state and the national government have made provision to aid the cotton farmers in warehousing and marketing their crop...

The new warehouse, which is being erected near the Southern depot in Shelby by the gentlemen above named...

When cotton is brought in for storage by a farmer who is not a member of the association, it will be weighed and graded, and a bonded warehouse receipt will be given for same.

There are three distinct advantages to the farmer in this method of warehousing, to-wit:

1. The cotton will be kept in perfect condition, and will be fully insured against loss by fire, at a very low rate.

2. The warehouse receipt which will be issued to the farmer can be used by him as security for any loan that he may wish to obtain before selling his cotton...

3. The cotton tax of 25 cents per bale, which has been collected for the past three years and now amounts to nearly \$1,000,000, is held by the State Warehouse system as a guaranty fund to secure the farmers storing cotton...

It is needless to discuss the advantages of the warehouse to the member of the Cooperative Cotton Growers association, since this association could not operate without warehouses...

It is to be hoped that the farmers of Cleveland county will take advantage of the benefits of our new public warehouse.

are losing more than the storage charge damaged cotton, it would certainly be good policy to get the advantage of storage on this by paying therefor the money we are now losing...

For further information inquire of Mike L. Borders, the local manager, at the warehouse near the Southern depot in Shelby.

About a dozen persons were sleeping in the building when the fire was discovered, one of the sleepers being aroused by the smoke.

STYLE OF CAPS MARK WAKE FOREST CLASSMEN

Wake Forest, Sept. 7.—For the first time in the history of Wake Forest College the freshman class begins the year under what might be termed restrictions...

Each freshman is buying himself a freshman cap as fast as he arrives on the hill and the strange part of it is that he is doing so without absolute requirement or instruction from the faculty or student government.

Last year the governing body of the college passed a number of rules and regulations for the first year men which were in the nature of distinguished requirements rather than restrictions or methods of discrimination.

Concerning Mail Service.

To the Public: Owing to existing strikes on our railroads, the mail trains are often late, and as both rural and star route mail carriers must leave on schedule time, much mail reaches the people late.

In this connection, permit me to say that the Shelby post office will appreciate, at any time, suggestions from its patrons for the improvement of the service.

On Silent Wings.

(By Marion Couthouy Smith) There is a flock of weary birds, that go Not south, but westward with the dying days; They fly in silence through the twilight ways, Sounding no call of joy, no cry of woe One after one, like some thin river's flow, The line goes on, athwart the morning rays, Through the clear noonday, or the stormy haze, Still winging toward oblivion, mute and slow.

Gillespie.

This bright little girl who was the joy and pride of her parents life, had the misfortune to be kicked by a horse some time ago, followed by infantile paralysis, which resulted in her untimely death.

pastor Rev. Mr. Tate performing the ceremony, in the presence of only the immediate members of the two families.

Mr. Moore kept his approaching marriage a profound secret from his friends here, and even his associates at the First National bank, where he holds the responsible position as assistant cashier, thought he was only leaving Shelby last Saturday for a week-end visit and it was not until handsomely engraved cards were received here Sunday announcing the happy event, that this interesting secret became known.

FOURTH OFFICER IS HELD FOR SHOOTING

CABANISS OF LATTIMORE UNDER \$500 BOND

Mrs. Miller Undergoes One Operation—Is Holding Her Own—Much Feeling Aroused.

The arrest of Policeman Cabaniss, of Lattimore, who is charged with having fired the second shot which hit Mrs. I. B. Miller, of Caroleen, is about the only new development in the case which has caused much comment in this county and over the entire state.

Policeman Cabaniss, was Saturday placed under a \$500 bond. He is charged with having shot Mrs. Miller in the neck, Mr. Miller declaring that the shot was fired at Lattimore struck his wife in the back of the neck.

At the preliminary hearing Cabaniss admitted having shot one time but he declares that he was shooting in the ground. Other men who were in the car with him also stated that he fired but they were unable to say in what direction the gun was pointed.

The defense of Mr. Cabaniss, it is understood, will be based on the claim that he had been informed by the officers at Casar that a man had been killed hen run over by the car and that he was naturally led to believe the car contained desperate people.

This last contention, however, seems to be refuted by Mr. Miller's statement and by that of Mr. and Mrs. Thompson, who state that Mrs. Miller was shot in the back at Casar and that the bullet which entered the back of her neck, circling around her head and breaking the jaw bone, was fired at Lattimore.

A report reaching The Star as to the occurrence at Casar while unverified, is given as it was received. It is claimed that there were two cars proceeding along the road. The car in which the Caroleen party was riding was behind the other machine. Both machines were stopped. Houser searched the machine which was in front. Wesson searched the car in which Mr. and Mrs. Miller were riding and, finding no whiskey told them to drive on.

This report, of course, is unverified. With the exception of statements made by Prohibition Enforcement Officer Houser Thursday morning nothing has been heard of the officers story. It is now declared that the affair took place earlier in the night than was first reported, or about 9:30 o'clock.

The shooting has been almost the sole topic of conversation in the county since its occurrence. Sentiment seems absolutely against the officers, especially against those who started the shooting at Casar. It is understood that sentiment in No. 11 township, where the car was stopped, is so intense that Hoyle and Wesson have been threatened by a number of people.

The opinion of attorneys seems to be that Houser, Hoyle and Wesson will likely be tried in Federal court, inasmuch as the party was in charge of Houser, who is a Federal officer. However, Cabaniss will probably be tried in Superior court in this county as he was not acting in conjunction with a Federal officer.

Clyde R. Hoey has been retained to prosecute the officers, O. Max Gardner represents Policeman Cabaniss and O. M. Mull will appear for Wesson, Houser and Hoyle.
