"SMILIN' THROUGH"

"Smilin' Through," an appealing, whimsical three-act play by Allen Lang. don Martin, has achieved phenomenal success through its wealth of human appeal. Critics have declared it to be a "classic of the modern stage."

When "Smilin' Through" was first produced in New York, Jane Cowl, who played the stellar role, achieved an artistic triumph that will long be remembered. Later she played to capacity houses all over the country. In San Francisco the receipts from the play reached the notable sum of \$25,000 a week.

On the moving picture screen Norma Talmadge, in the leading role, is credited with her finest type of emotional artistry. The play has been referred to by motion picture journals as one of the sweetest stories ever told on the the difference. J. S. Gillespie, 1 mile cold.

"Smilin' Through" deals with youth, love, misunderstanding and a sadly misplaced desire for revenge. Attempting to part two young lovers-one his devoted ward-an elderly man suddenly lives again through his youth and sees the mistaken manner in which he met his life's problem and sacrificed years of happiness. Through this complete revelation the young people are reunited, and joy comes again into a life that had long been barren and unhappy.

"Smain' Through" is given by a company of New York actors organized and coached by the New York City Producing Department of the Redpath
