Spring Is Just Around The Corner

"For man can show thee naught so fair, As Nature's varied marvels there, And if thy pure and artless breast Can feel their grandeur, thou art blest!" —Heman

To most people, Springtime is a season of exhilaration and a symbol of hope. At every hand may be seen metaphoric resurrection. Buried for months beneath the leaves and silt and winter's snows, little dark seeds quicken to life, and burst forth in a riot of color and beauty.

Dewy cobwebs stretched from bush to bush, overnight, become Nature's antennae, broadcasting the glad news that Spring is here.

Every man will want to steal off to some place "where a stream shines clear beneath an aged tree, where the foxglove, over the water's glass, is borne downward by a bee;" he will want to breathe deeply the fragrant air, and feel new life course through his veins.

Spring brings with it the promise of a new harvest. Before the harvest, the seed must be sown. Are you giving proper thought to your own harvest time? If not, start a Savings Account now.

A Paying Investment

On Your Own Terms

There is no better investment than a savings account with any one of our four offices. A savings account of one dollar, or a hundred, or a thousand dollars is always worth the amount of money you paid into it, plus the interest it has earned.

Can you say as much for bonds and stocks?

You can build your account on terms to suit yourself, and when it is most convenient.

Can you do that with other investments?

You can draw your money at your pleasure—you do not have to wait for "a better market."

Do you feel that secure with other securities?

Your first "payment" (deposit) will draw interest, whether or not you continue regular deposits. Interest is added to your investment at the rate of four per cent, compounded each three months.

Isn't it a good investment?

At one of the branch offices in the county ten new Savings Accounts were opened in one day this past week.

Some people are waking up to the importance of Saving—Are you?
