The "Looker On" Writes About "The Uplift."

There's a little booklet published at Concord, this state, a weekly journal published by the authority of the Stonewall Jackson Normal Training school. The editor is James P. Cook, and in this said journal, every week there's something to read that stays with you and you can be benefited by its wise sayings. One thing the "Looker On" was so impressed with was the article on the front page, under the caption "The Boy."

"The Boy"—He is the person who is going to carry on what you have started. He is to sit right where you are sitting and attend to those things you think are so important when you are gone.

"You may adopt all the policies you please, but how they are carried out depend on him.

"Even if you make leagues and treaties, he will have to manage them—He is going to sit at your desk in the senate and occupy your place on the supreme bench.

"He will assume control of your cities, states and nation. He is going to move in, take over your prisons, churches, schools, universities and corporations.

"All your work is going to be judged and praised or condemned by him.

Your reputation and future are in his hands. All your work is for him, and the fate of the nation and humanity is in his hands. In fact a boy is the only thing you can make a man of; so it might be well to pay him some attention."

Miss Sarah McMurry to Wed Mr. Tom Moore.

On Saturday afternoon at 3:30 a very interesting social affair was given at the home of Mrs. D. W. Royster when Mrs. Royster was charming hostess to the South Washington bridge club and quite a number of intimate friends of Miss Sarah McMurry. It was one of the loveliest card affairs of the week. Tables were arranged for bridge in the spacious living room, the dining room and sun parlor. The guests found their places at the ten tables by means of attractive Easter cards. The spring season was suggested by the quantities of beautiful wysteria, purple lilacs and snow drops and other blooms used in the decorations. Easter chicks and eggs were used as table numbers. Mrs. Royster received her guests in a midnight blue beaded georgette and Miss Sarah McMurry was lovely in a powder blue accordion pleated gown with cream lace bodice and corsage of pink roses. Her hat was a small black shape with gorah feathers. Mrs. Pitt Beam, a recent bride, was attractive in beaded black georgette and black cloche hat. After the guests had assembled several interesting rubbers were played after which Mrs. Royster assisted by Mrs. S. S. Royster, Mrs. Avery McMurry, Mrs. J. J. McMurry, Mrs. Sim McMurry, Mrs. Amos Willis and Mrs. Willis McMurry came in bearing lovely plates with delicious refreshments and on the salad were little rabbits with aprons and under the apron pockets were written S. A.—T. M.—June 12, announcing Miss McMurry's engagement to Mr. Tom Moore. Great happiness and joy were expressed by the reading of the announcement. Miss McMurry was presented with a wedding book and Mrs. Beam, sharing honors received a lovely pair of Dutch silver vases. The sweet and ice course was then served, carrying out the Easter suggestions. Miss McMurry is a very popular young woman and much admired and the announcement of her approaching wedding will be received with great interest.

FIVE PERSONS KILLED BY A RUN-AWAY ENGINE

Chicago, April 20.—Four persons were killed, one seriously hurt, and one escaped uninjured early today, when a Baltimore and Ohio railroad engine ran wild from a round-house and crashed into an automobile more than a mile away. Railroad authorities could not give any reason for the sudden start of the engine. Police heard that two small boys were seen running away from the engine as it started to move.

The dead: Otto Bowlmark and wife, Olga, and son, Irvin, 10, and William Lindberg, who died later in a hospital.

Enginemen said it was possible that escaping steam and vibration might have caused the throttle to jar open.

Hosea Lattie, negro, one of four men held in the investigation, said he fired the engine and was waiting nearby in a shanty for the crew to take it over. He said he saw it suddenly start and thought the crew had taken charge until he saw a man jump from the cab.

Substitutes are generally more expensive in the end than genuine articles. Housewives have learned—they KNOW this is true where bakings are concerned.

Self rising flours are classed as substitutes for plain flour and good baking powder. The use of these special mixtures is very liable to result in false economy, failures and waste on bake day.

Remember there is a big difference, in many ways, between biscuits and other bakings made from these so-called self-rising flours and those made from good plain flour and a dependable leavener. Try the experiment—make a baking from each—convince yourself.

You will find the baking made from flour and baking powder far more attractive in appearance. It will raise higher—retain its full food value and taste better. For best results, do not fail to use Calumet, the Economy Baking Powder, and a reliable brand of plain flour.

Just think of it—the sale of Calumet is 2 1/2 times as much as that of any other brand. It contains only such ingredients as have been officially approved by the United States Food Authorities. It is pure and sure. You save when you buy it—you save when you use it.
