**"Looker On" Writes About America.**  
If there is any section of the world that should be really and truly grateful for the many material blessings it now enjoys, that country is America. We used to think that Europe with its venerable institutions of learning, its wonderful museums, galleries of art, its magnificent churches and palaces, was the final and the finished product of civilization. It seems but yesterday that to have been "abroad" was a badge of distinction, a hallmark of culture and an indisputable evidence of social prominence. But today after knowing Europe with its frightful ravages of war, its

seething discontent, its undernourished and debt ridden peoples, its discredited titled classes, its helpless present and almost hopeless future the glamor fades, and we realize that its civilization was but a thin veneer after all. Every convenience and material comfort that intelligence has suggested and ingeniously devised is within the reach of all in this country. One is truly fortunate in this day to be "just an American."

**Mrs. Oscar Suttle Compliments Mrs. Carl Hopper.**  
Mrs. Oscar Suttle will be at home informally on Saturday afternoon complimenting Mrs. Carl Hopper who is visiting relatives here. Mrs. Hopper is from Pal Furries, Texas and comes of a very prominent and old family, her father being the owner of large ranches also a banker of prominence. Mrs. Suttle's hour is from 5:30 to 6:30. The members of the music and Art department will be the guests and a few outside friends.

**The "Looker On" Writes of Fair Play in Furnishing.**  
Many a woman who has an absolute sense of justice towards her family, friends and trades people, practices a gross partiality towards certain parts of her house. She would scorn to show more kindness; or shower greater expense upon one child than another. Yet she will in choosing her household furnishings, "play favorite" in a most obvious fashion. In some homes the parlor is the favored room, getting all the handsome and expensive things, while the rest of the house gets shabby and shabbier. In other houses, the entire downstairs is furnished and adorned on a much finer scale than the upstairs, where guests are seldom allowed to penetrate. One woman will keep on buying lovely new table linen and dishes and yet her upstairs linen supply gets low. Another woman will buy expensive electrical equipment, yet never a book, a lovely picture, a graceful lamp, or anything which would minister to the aesthetic life of the family, or develop in them an appreciation of beauty. Only by fairly apportioning can one obtain in the house or in a room, an appearance of harmony, beauty and balance.

**Safety on Highways.**  
(From Greensboro Record.)  
Herbert Hoover has appointed Frank Page highway wizard of North Carolina, as chairman of a committee to work out plans looking to a greater degree of safety on highways and streets.  
Such a movement will be concentrated in a conference on the subject preventing accidents from motor vehicle traffic in this country, to be held later in the year. This is the first wide-spread attempt to lower the frightful toll on human life taken yearly by motor accidents.  
The real solution to this problem appears to lie with the individual. The work of the committees will be to devise plans for bringing this menace forcibly to his attention.  
The great success from the grade crossing campaigns that have been conducted prove conclusively the power of the individual and when this power is properly directed we will see the number of fatalities and accidents diminishing.  
If the motorists can be made to see the danger of railway crossings they can be made to see the danger of other causes of accidents. The movement instituted by Secretary Hoover is one that should find support because of its broad human scope and the fact that the field it will serve needs attention so vitally.  
Let's have fewer and smaller accidents!

**EVANS E. McBRAYER**  
has just received from Mr. Bricker, his New York buyer, 300 fine Broadway Straw Hats. He bought them for \$1.00 to \$1.50 less than regular price. They go on sale the same way. Three lots \$1.95, \$2.95 and \$3.45. See them at once.

**—AT THE PRINCESS—  
—FRIDAY—**  
Jean Tolley in "THE UNINVITED GUEST," a story of a girl castaway and two men who fought for her. One for himself and one to save her from the other. A thrilling and beautiful romance of the tropics and the South Seas, of treasure gold and love. An exceptional feature is undersea scenes in natural colors.

**—SATURDAY—**  
William Fox present John Gilbert in a hair-raising film "THE LONE CHANCE." Action and danger on every hand; the desperate risk with a bare chance to win, but Cupid throws a dart. See the dare-devil leap from prison wall to the lake and freedom, action in every scene. An appealing narrative of the youngster who was imprisoned on the eve of his sweetheart's wedding to another man. A good comedy an extra attraction.

**—MONDAY—**  
A brilliant story of Chinese love and American morals —"JAVA HEAD"—taken from the Saturday Evening Post story and by the author of "Tol'able David." An exquisite flower of Chinese loveliness into the snobbery of a New England seaport town—see the yearning for love and sympathy. Also the second chapter of "GHOST CITY."

**TURN ON THE CURRENT**  
DO you believe in electricity? Do you believe in its power to run street cars, heat buildings, ring bells? If you do you can realize the effect of the human electricity or Vital Force of the body; what the effects will be when there is an obstruction of this force.  
We Chiropractors release the prisoned impulse, the tiny rivulet of Vital Force, that emanates from the mind and flows over the nerves to the cells and stirs them into life; this power that transforms common food into living, loving, thinking clay. We deal with that subtle substance of the soul, the individual power of God in man, which flows through every living thing, bringing about the great mysterious functions we call life.  
**PRESSURE UPON NERVES OBSTRUCTS THIS FLOW OF VITAL FORCE**  
Causing weakened activities of the bodyguard physical disorders arise. CHIROPRACTORS remove this pressure on the nerves, like turning on the current by means of a switch.  
**CAN WE HELP YOU TO OBTAIN BETTER HEALTH?** Now is the time for you to investigate.

Tuesday night the garages of Messrs. J. R. Dover and Fred Morgan were broken into and their cars tampered with—they have BUICKS.  
Now we like to sell BUICKS, for it's a kind service to mankind, but we cannot guarantee our buyers that thieves won't try to steal them, for the rascals are just wild about B-U-I-C-K-S.

**Some Don't Live.**  
(From Greensboro News.)  
A Trinity student has been killed in front of the college by jumping from a moving train rather than ride on into Durham and come back. Of course, it is deplorable that he took the chance; yet after all, when young men quit taking chances, it will be a poor world to live in, don't you think?
