Hupmobile

So we bring the inside of the car out into the daylight where he can see it before he buys.

We want him to see how much more he gets than the same price can buy elsewhere.

So come in—see the Parts Display—learn real facts about motor cars.

GRIFFIN'S EIGHT YEARS OF SCHOOL

Enrollment Has Increased Nearly 300 Per Cent, Teachers From 16 to 45. Three New White Buildings.

At the Kiwanis meeting Thursday night when the senior class of the baseball champions were entered, Wm. Lineberger who had charge of the program read the following interesting review of Supt. L. C. Griffin's eight years at the head of the Shelby Public Schools:

"Mr. Griffin asked me to take charge of this program and is in no way responsible for what I have to say. He was hald headed and a heavy weight before he came to Shelby. big enough to do things and active enough not to be clumsy in doing them so I want to say a few words about our schools during the eight years he has been at their helm.

"Salisbury, the place from which he came, 'Goosecreek township, Union County is where he was born. Just when I do not know, I do know that during his eight years in Shelby our public schools have kept pace with our growth along other various lines and I want to review a few of his accomplishments. When he came here there were 575 enrolled in our public schools. This year we had 1600, nearly 300 per cent increase. Then we employed 16 teachers—today we have 45 with A grade certificates to prove their ability to do the job right. This year there lacked only ten being as many in our graduating class as there were in the entire high school the year before Mr. Griffin came to us.

"Look at these departments that have been added during these eight years. A 11th grade was added and the courses of study raised so that the school has been placed on the accredited list of high schools entitling the graduate to enter any college or university in the South without further examination. School officials and high school graduates appreciate what this means more than we business men. A commercial department has been added. A teacher training department has been added and in the course of a few years we hope to have a normal teacher training school supported by the state. Eight years ago our main school building had 12 class rooms. Since he came and the enrollment has multiplied so fast, three school buildings have been erected for white children and one for the colored. Eight years ago there were 12 class rooms in the white schools and three in the colored. Today we have 30 white class rooms and eight for colored.

"The cost this year for running our schools has been \$40 per pupil or \$4.50 per month or only 25c per day, less than the average cigar smoker burns up each day.

"Mr. Griffin has set such a high standard for our schools, their reputation is known far and wide. The honors our boys and girls have taken in North Carolina prove that, but this word for closer home. There are 75 pupils enrolled in the high school from outside the city. Many of these come every school day from as far as ten miles in the country and if you will look around the school building some day you may think our town boys and girls are too lazy to walk and have to ride to school, but these are country boys and girls who motor in from a distance.

"You heard what Mr. Draper the landscape man said two weeks ago tonight. Mr. Griffin not only trains their minds and bodies, but the school grounds and the hospital grounds are the best kept public premises in Shelby. Griffin is responsible. We are proud of him and his eight year record. These boys and girls who are with us tonight, 64 strong, are evidence of his value to us as a school official.

"His is a big job. He is virtually the 'daddy' of 1,600 children every school day in the year. We tire sometimes in our home of two or three, just how he gets by with it I can't understand. You can have the job, 'Daddy' Griffin."

Fallston Boy Wins Honors At Trinity

The county of Cleveland is represented in this year's graduating class at Trinity college Mr. Stamey has pursued a business course, and will receive an A. B. degree in business administration upon graduation.

Mr. Stamey plans to enter the business world during the coming year, and with the aid of the business course at Trinity college in which he attained high honors, undoubtedly will become one of the leaders in business life.

While a student at Trinity college, Mr. Stamey was an active member of the Columbia literary society, participating in many debates. He also was a member of the college band for three years.

Shelby Also.

(From Gastonia Gazette.)
A traveling man dropped into The Gazette office a few days ago to make public complaint of the dogs that howl constantly around the Armington hotel at night. He says they belong to guests of the hotel and make a sleepless night hideous for tired traveling men. This is given as a matter of information. He said much more but it couldn't be printed in a family newspaper like The Gazette.

Preacher Tells Of Type He Votes For

(Rev. D. C. Johnson in Smithfield Herald.)

I will say I am not a candidate for office for I hold the highest office in the world and that is a minister of the Gospel, but I am a candidate for men to fill the office that do not drink into cheating liquors and men that will use their influence against this great evil. Now, if there is a man on this ticket that can fill this place, write me by return mail and I will use my influence for him.

God sometimes suffers the wicked to obtain great power that they may be scourges of his people on account of their sins. No trials without the grace of God will humble and purify the human heart or lead men to forsake their sins and turn to God. In my judgment there has never been a time when men and women need to spend more time on their knees than now, in order that we may have righteous rulers in our government.

Now to the church members: What in the name of the good lord do you mean and how do you expect our country to get any better so long as you do not aid in any way.

Now to the young ladies of our country. How do you expect to be any help in driving this evil out when you will get up and ride with young men and their breath smelling like a slop tub? "Wine is a mocker, strong drink is raging and whosoever is deceived thereby is not wise." Prov. 20:1 "Be not deceived, God is not mocked, for whatsoever a man soweth that shall he also reap." Gal. 6:7.

Now join me in prayer, "Blessed Father, may we all be led by your Omnipotent Hand to the ballot box and vote for the right men is my prayer for Christ's sake. Amen."

Sideache Backache

"I have been taking Cardui," says Mrs. Lillie Bolton, of Lake Providence, La. "I got down in bad health and lost in weight until I only weighed 120 pounds. I had bad pains in my sides and back and my legs hurt me until I couldn't walk. I stayed in bed half the time. I tried all kinds of medicine, but it did me no good. Finally I tried

CARDUI

The Woman's Tonic

"It seems like it did me good from the very first. After I had taken half a bottle I noticed an improvement. I continued its use and I got better and better. The pains in my legs and sides disappeared and I began to gain in weight until now I weigh 155 pounds and feel better than I ever did in my life. I am perfectly well and strong. I have given it to my girls, too."

Cardui has relieved many kinds of pains and distressing symptoms caused by female trouble. It should help you, too, in the same way. Why not give it a fair trial?

Save Those Chicks!

Don't let dreaded White Diarrhea first weaken, then kill off your youngsters—keep the dangerous disease out of your baby flock. In their first drinking water, give the chicks

Pratts White Diarrhea Tablets

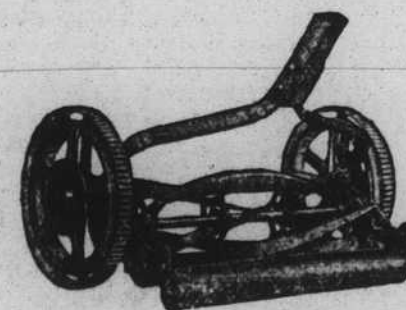

to overcome the trouble if present—to prevent it from appearing. Even if you think your chicks are free from it, play safe. Costs but a trifle—may save you many chicks and many dollars. If your dealer hasn't Pratts, send 25 cents for a package to

Ocean Phone Line Inaugurated Soon

Service Between New York And London On The Ocean Liners By Radio Telephone.

Some time in November a New York business man will lift the receiver off the telephone and speaking into the mouthpiece will exclaim: "Hello!" says the New York Herald Tribune. At the same instant a London business man will speak into a telephone in the British capital, inquiring, "Are you there?"

This, the American Telephone and Telegraph company announced yesterday, would mark the beginning of regular telephone service between New York and London. And, what works between these two cities can operate just as successfully, in time, between New York and Paris, Venice, Constantinople and Rio De Janeiro.

A dispatch from London printed in yesterday's New York Herald Tribune announced that Great Britain, through its postal department, intended to establish a 200-kilowatt radio telephone plant at Rugby. It will be similar to that used for the last eighteen months by the American Telephone company here and the Radio Corporation of America.

What will happen is this: Subscribers at each end will be connected to their radio stations by wire telephone lines. At the outset the service will depend largely upon atmospheric conditions, which change from hour to hour. But the wireless engineers are convinced they will be able to cope with static within a reasonable length of time.

Then again, on January 14, 1923, the company's president, H. B. Thayer speaking from 195 Broadway, was heard by a group of engineers in New Southgate, England.

The answers from London, however, had to be sent by cablegram. Next winter the answer will be instantaneous, over the wireless telephone.

Experts have found that owing to sudden changes in atmospheric conditions, it sometimes is necessary to use 10,000 times as much power to get audible speech across the ocean as it is at other periods.

Macaroni Made Of Best Wheat

Somewhat Intricate Process Involved In Manufacture Of Popular Foodstuff.

Macaroni is rated high in nutritive content. High grade macaroni is made from durum wheat semolina, which is produced from the choicest and most nutritious part of the wheat kernel.

After the semolina is sifted it is mixed with water in a dough mixer. The well-mixed dough is then transferred to a circular kneading machine where it is kneaded until it is smooth in texture and possesses a certain resiliency.

Now the dough is ready to be formed into macaroni. This is done by forcing the dough under hydraulic pressure, about 5,000 pounds to the square inch, through a cylinder with a bronze die at the bottom. This die is full of holes, about a quarter of an inch in diameter, and each hole has a pin in the center, which is attached to two sides of the hole. The pin forms the hole in the macaroni and divides the dough as it passes through. But, before the dough reaches the end of the hole, the divided parts come together again and remain so, making a perfect tube.

The macaroni is then cut into proper lengths and is taken to the curing room where it takes from two to five days to thoroughly dry. After the macaroni is thoroughly dry it is packed for shipment.

Spaghetti is made in the same way, except that the holes in the die are smaller and there is no pin in the center to form a hollow tube.

Boys And Girls Are Ready For Adoption

The Star is in receipt of the following announcement from the Children's Home Society of North Carolina with headquarters at Greensboro:

This institution will have ready for adoption during the month of June 18 boys and 21 girls of the following ages:

- Two baby boys 4 months old.
- Two baby boys 6 months old.
- Four baby boys 2 years old.
- One baby boy 3 years old.
- Four boys 4 years old.
- Two boys 7 years old.
- One boy, 9 years old.
- Two boys 11 years old.
- Two baby girls, 2 months old.
- Two baby girls, 6 months old.
- One baby girl, 2 years old.
- Two baby girls, 4 years old.
- Two girls 7 years old.
- Six girls, 9 years old.
- Three girls 10 years old.
- Three girls 12 years old.

Applications are solicited from prospective foster homes which meet our requirements as follows:

First—Applicant agrees to give the child full advantage of the religious and educational facilities of their community.

Second—Applicant agrees to furnish three references, of whom is Pastor of the Church where applicant holds membership.

Third—Applicant agrees to accept the child as a member of their family and give the child love and protection as they would one of their own.
