Coming as a surprise to their many friends was the marriage of Mr. Jarvis L. Wilson of Morganton and Miss Sarah Styers of Cherryville which took place Saturday afternoon at 3 o'clock at the Baptist parsonage in Gastonia. Rev. W. C. Barrett performed the ceremony in his impressive manner. Only a few friends and relatives of the bride and groom witnessed the ceremony.

Immediately after the ceremony the bridal couple left by motor for the mountains of western North Carolina. On their return they will make their home in Morganton.

FLUFFY BLANKETS INVITE SWEET SLUMBER

There is something about fine blankets that enchants everything one can do for them. They respond so beautifully. They come out so soft. So fluffy. So coaxing to sweet sleep. So inviting in their "feel" to the hands that smooth them.

There are all the scientific reasons you could think of why Ivory Soap leaves blankets so wonderfully alluring. Pure Ivory Soap, as all the world knows, has no equal for fine work. That's why we use it.

Send us your blankets. We handle them very carefully.

Blinding Headaches

"For about twenty years," says Mr. P. A. Walker, a well-known citizen of Newburg, Ky., "one of our family remedies has been Black-Draught, the old reliable. I use it for colds, biliousness, sour stomach and indigestion. I was subject to headaches when my liver would get out of order. I would have blinding headaches and couldn't stoop about my work, just couldn't go. I used Thedford's Black-Draught and it relieved me. About eight years ago my wife got down with liver and stomach trouble. We tried all week to help her, but she didn't get any better. One day I said to the doctor, 'I believe I will try Black-Draught, it helps my liver.' He said that I might try it and to follow directions. She was nauseated and couldn't eat or rest. She began taking Black-Draught and in two days she was greatly improved and in a week she was up." Try Black-Draught. It costs only one cent a dose. Sold everywhere.

Our Lumber Supply Fast Giving Out

Already Cost is Ahead of Average of Other Commodities and Still Rising.

If lumber should become a luxury in the United States, the effect would not be like that of some of our well known luxuries, such as diamonds, champagne and terrapin says the New York state college of forestry at Syracuse university. Such luxuries belong to the non-essentials. They have nothing to do with the actual necessities of life. A world would wag on just the same without these special objects of vanity and pampered palates.

The forests, however, and the products that come from the forests are at the base of many of our most important industrial and intellectual progress. They figure in the life of every individual importantly. Forest products are needed by the poor as well as the rich. They are about 1,000 different uses for wood. The employment of wood is so universal that it has been said on good authority that civilization would fall without the forests.

Neither the rich nor the poor could do without wood. Home, office, transportation, communication, education, clothing, health and food supplies are closely related to the use of wood and the offices performed by the forests. If timber should become a luxury it would bring about a serious situation in this country. It would hit hard the people of the United States, because, since the Pilgrims landed, we have been the largest individual users of wood.

The cost of lumber has advanced beyond the average of all other commodities. The supply is dwindling rapidly, which means that the cost of lumber will continue to increase. Lumber is being used four times faster than it is grown in the United States and 20 times faster than it is grown in New York state. The supply of virgin timber is sufficient for 25 years at our present rate of consumption. The pro rate use of wood is becoming less by the force of necessity, but it cannot be reduced much further without inflicting hardship upon the people. Unless provision is made immediately for new forests, wood will not only become a luxury but it will remain a luxury for many generations.
