

DEAR READERS—

America is a land of many fine things, but it is also the land of the "fortune hunter." Fortune hunting is overworked. It is a detriment to legitimate business. It has been the ruin of many a promising career.

Fortune hunting in our section may take the form of speculation in lands, buying futures, planting too heavily of one crop. Fortune hunting means risk and generally leads to ruin.

If this bank has influence with you we would use it to restrain you from risks. Play the game safe. Put your trust in work, good management, saving something each year, spending economically and the avoidance of big debts. Put safety first. When in doubt consult some friend. When we can give you information or some opinion that will be of value to you we shall be very glad for you to call on us. You will find a cordial welcome at this bank every day.

Yours To Serve,

CLEVELAND BANK & TRUST COMPANY

Deposit your money in this bank. Pay your bills with checks. Place your surplus funds on interest. We cordially invite your business and your cooperation.

THANK YOU.

SPEEDWAY WILL BE
FINISHED THIS WEEK

The Charlotte speedway, whose inaugural race will be staged Oct. 25th, will be completed by Saturday of this week. Lane Etheredge, president of the speedway association, announced at the luncheon meeting of the Charlotte Merchants association Monday afternoon at the chamber of commerce.

Mr. Etheredge, said that the grandstands will be finished by Thursday and that the track itself will be completed and ready for testing by the end of the week.

Cars of the racers have already been shipped from the Pacific coast and are expected within a week or so. The drivers are also expected in a short time.

Members of the association decided to insert paid advertisements in the newspapers in order to further call attention to the merits of the safety first campaign now in progress under the auspices of the association.

PEACOCK FREED ON A HABEAS CORPUS WRIT IN CALIF.

San Diego, Cal. Oct. 10.—Dr. J. W. Peacock, for whom extradition was sought by North Carolina authorities as the result of his escape from the insane ward of the North Carolina penitentiary at the state capital, where he had been confined for the shooting and killing of Chief of Police Taylor at Thomasville, N. C., was freed on a writ of habeas corpus in Superior court today. He returned at once to his ranch near here.

Listen for the "Hum"

Here is a nice little story about the former scientist, Charles Robert Darwin.

Two English boys, who were friends of Darwin, thought they would play a joke on this man of science and originator of the "Darwin Theory." (This theory is a form of evolution, which holds that succeeding generations of the same species will vary slightly, until finally separate and distinct forms of life are produced).

The boys caught a butterfly, a beetle, a grasshopper and a centipede. To the centipede's body they carefully attached the wings of the butterfly, the legs of the grasshopper and the head of the beetle.

With this transformed "wampus" they proceeded to Mr. Darwin's room, where they displayed it, stating they had found a new bug, and asked what it was.

Mr. Darwin examined it, and gravely asked this question: "Boys, did it hum, when you caught it?"

They assured him that it did. To which he replied: "Then, if that be so, it is a humbug!"

This suggests the thought of the many bogus forms of investment offered to the public. Many of these amount to no more than a stock-promoter's scheme. Others prove worthless because of mismanagement. Your banker is trained along investment lines. Consult him.

He listens for the "hum."

Free distribution of fifty million trees and shrubs to prairie farmers by the Canadian government during the past few years has proven to be a far-sighted and beneficial public policy. This sort of paternalism accomplishes great good, without giving much opportunity for dishonesty.
