Buildings Crowded With Exhibits; Amusements Are Varied and of Excellent Quality.

Several hundred people attended the opening day of the Rutherford County fair near there Tuesday. It was by far building was crowded to the limit. The poultry and livestock buildings were running over.

The amusements were larger and better than ever. The fireworks Wednesday and Thursday nights were a special feature. Eleven hundred pounds of powder andother materials were used.

The Rutherford County club has secured Governor Cameron Morrison to speak at its October meeting at the Isothermal hotel, Oct. 22. The date will be one day later than usual in order to have the governor make the principal address. He will probably speak at a mass meeting in the court house at night. He will discuss port terminals and water transportation.

ADVERTISE IN THE CLEVELAND STAR

Listen for the "Hum"

Here is a nice little story about the former scientist, Charles Robert Darwin.

Two English boys, who were friends of Darwin, thought they would play a joke on this man of science and originator of the "Darwin Theory." (This theory is a form of evolution, which holds that succeeding generations of the same species will vary slightly, until finally separate and distinct forms of life are produced).

The boys caught a butterfly, a beetle, a grasshopper and a centipede. To the centipede's body they carefully attached the wings of the butterfly, the legs of the grasshopper and the head of the beetle.

With this transformed "wampus" they proceeded to Mr. Darwin's room, where they displayed it, stating they had found a new bug, and asked what it was.

Mr. Darwin examined it, and gravely asked this question: "Boys, did it hum, when you caught it?"

They assured him that it did. To which he replied: "Then, if that be so, it is a humbug!

This suggests the thought of the many bogus forms of investment offered to the public. Many of these amount to no more than a stock-promoter's scheme. Others prove worthless because of mismanagemen. Your banker is trained along investment lines. Consult him.

He listens for the "hum."
