Improvement Club At Dover Mill School

The teachers of the Dover mill school: Mrs. J. C. New, Mrs. Yates McSwain, Mrs. R. B. Costner and Miss Ruth Padgett and the ladies of the community met at the school house November the 3rd and organized an Improvement club. The purpose of this club is to make improvements in the community. In the near future the club contemplates sponsoring several needed improvements.

The first thing they will undertake, however, is to raise some funds to be spent on the interior of the school building and some equipment for the playground.

The club has decided that the best way to raise the necessary funds for this much needed improvement is to give a box supper. The box supper will be held at the school building Saturday December 6th and the public is cordially invited to attend. Besides the sale of the boxes, sandwiches, hot chocolate and coffee will be served.

Mrs. Yates McSwain, Secty. Dover Mill Improvement club.

Newton Appreciated Late Joe C. Smith

Catawba News-Enterprise. "Flitting, flitting away, all that we cherish most dear, For there's nothing on earth that will stay, The roses must die with the year."

We are reminded of the above lines as the days go by. Not only are the roses dying with the year, but loved ones are passing away each day in this life—'twas ever thus. Life is made up of its joys and its sorrows.

The passing of Mr. J. C. Smith at Shelby is a reminder of his friends in Newton of the uncertainty of life and the certainty of death.

Mr. Smith was for a number of years one of the builders of Newton. He was interested in the growth and the development of this town and gave his influence and of his means to make this a better community in which to live. He was a busy business man but took time to give of his thought and his means to the support of his church—the Methodist church—of which he was a consistent member.

The world today needs more business men of the type of Mr. J. C. Smith—men who take God into account, when considering business interests and material growth and development.

Around Our Town
—SHELBY SIDELIGHTS—

A friend of the paper asked us why we didn't publish pictures of Shelby ladies and girls made 30 or 40 years ago. We didn't answer then for several reasons, but if we had it might have been: "We like to live in Shelby." Imagine carrying a picture with a title "Shelby Belles of 40 Years Ago," and have some of those pictures recognized—You know some of them are young yet.

Out at the Kiwanis club Thursday evening "a man from Missouri" reeled off a toast to North Carolina that in our opinion tops the list. When he got through a prominent Kiwanian gulped and remarked: "I allus wuz proud of the state, but I just now know why."

Prior to his toast the speaker gave a good boost for his own state. He was from Missouri, which in pure-bred America brogue means "Must be shown," or the state of mules. The mules must have made the people that way for they will not approach the rear extremity of one until they have been shown he won't kick—and so the mules made Missourians cautious and skeptical. But his boost for Missouri was also about mules and follows: "If all the mules in Missouri were put in one, his front feet would be in the Panama Canal, his rear feet in the Hudson Bay and he could kick the lights out of the Aurora Borealis." Now, we're from Missouri! But they do tell us that the Missouri mule won the war, dead or alive, or maybe both. They were tough.

Here we go! June, July, August, September, October, November—and now almost every store you enter in the business section of Shelby you'll find shoppers seeking gift bargains—Christmas!

The fellow who wrote "It Ain't Gwine Rain No Mo", does not seem as crazy now as he did in the spring.

Just because Dr. E. B. Lattimore still looks like he did in the boyhood picture carried recently in The Star is no evidence that Shelby has not changed in the last 30 years. "20 Years Ago" The Star recorded that "corn shuckings" were the big go of the season, the gathering places of the young folk. Now, hasn't Shelby changed, or is it the times? Imagine wide, leather belts, V-neck sweaters and bobbed hair pulling the shucks off an ear of corn while they anticipated "Dumplin's" and, perhaps, a long joyful ride home in a buggy.

Shelby is a modern town. Mah-Jongg had its day here, and now the cross word puzzles are in our midst, as the preacher would say.

Friday afternoon two Shelby men leaned sorrowfully against the east end of the court house. In their eyes was a sad, far-away look. Neither spoke. Their glances were not directed at each other, but almost tearfully to the front. Apparently little joy remained in life for them, the avenue of living ahead did not seem to beckon so alluring for them. The cause of their sorrow was before them—no it was not the remains of a friend, and, no, again, it was not a sentence of 12 months on the roads—but many hours of joy and forgetfulness, and maybe worse, being made into bent and formless copper. A quantity of "stills" captured in various sections of the county were being destroyed by the officers. Hammered, hacked and smashed, returned again to copper. As the axe struck the last worm, one of the men turned, sighed and walked on towards the postoffice. The other hesitated and followed suit, except that he headed for the Cleveland drug store and a Frank Hoye dope. As yet they have not spoken to each other. The scene to them could not be expressed in words.

Shelby folks were furnished a thrill of a new variety Friday evening. They had the opportunity of seeing on the screen what they had witnessed in reality—the races on the Charlotte speedway. Many were never given the same privilege before—and the same many took advantage of it. Some tried to pick out their own eyes in the packed grandstand as the cars flashed down the straightway, but as yet we haven't heard of any recognition. To know that you were even up in the hazy crowd was enough—there's no likelihood of any Shelby people receiving a movie bid for their expression that day. Yes, the races looked like they did look, but they looked different from what they would have looked if those who looked had not seen the actual races. Now, figure out that spasm and you'll understand what we intended to say.

It's a long trail that has no ending and a painful column that has no close but the next period, please, is only a continuation mark—until next issue. If you know a better joke than the column send it in.

Lots of people think the third party always will be that.

CHRISTMAS!

Its none too early to begin thinking of Christmas, making your list and selecting gifts for your family and friends.

Every day new things are being put on display—just the thing appropriate—just the things you will want.

Quality and low price are big words with us. Selling good jewelry for many years has put our business on a firm foundation. Our customers know our goods can be depended upon, and all appreciate a gift from Hamrick's—just a little more, perhaps, than if selected elsewhere.

DESCRIPTION OF 114 ACRE FARM AT GUTHRIESVILLE, S. C.

I have a farm of 114 acres, on the C. & N. W. Railroad at Guthriesville, R. R. Depot, Express office and Telegraph Office. This farm has a long frontage on the State Highway. Nearly one-half mile. Which will be hard-surfaced in the near future. It has a large 8 room house, painted white. About 300 feet from the R. R. depot, and side track. It has a large barn, 2 stories high. 40x90 feet, with a cement floor running the whole length of the barn. Built as a dairy barn.

It has a nice 3 room cottage painted, and a barn at this cottage. It has about 20 acres in a hog wire pasture, with a clear stream running through it. Around 15 acres in wood land. The land is level and very productive. It also has a frontage on the road from Guthriesville to Rock Hill, of 98 feet. There is a Federal Land Loan on this place for \$5700.00.

The farm can be bought for \$11,400.00. The Federal Loan can be assumed, in this case it will really take only \$5700.00 cash or terms to buy the place. Purchaser assuming the land bank debt running for 35 years if so desired. Land bank debt can be paid off at any time. A school bus passes the door carrying the children to one of the best consolidated schools in the county. I would be glad to show you this farm of 114 acres. It is only 7 miles south of York. The County seat of York County.

WHY

HAS THE FIRST NATIONAL BANK OF SHELBY THOUSANDS OF ACCOUNTS AND RESOURCES OF OVER FOUR AND A HALF MILLION DOLLARS?

BECAUSE—For more than twenty years it has been the friend of Cleveland county.

BECAUSE—Every officer and clerk has the fact constantly in mind that the customer is the most important individual connected with the bank. They know the bank is not operated just to pay salaries, but to give a definite service.

BECAUSE—This bank has to offer every line of legitimate banking service from making change to securing Foreign Exchange.

BECAUSE—It is essentially a Shelby and Cleveland County institution, having the confidence and trust of the public over a long period. In fact over three generations.

FINALLY—The big outstanding reason why this bank has thousands of depositors is because it has wanted them and worked unceasingly for them! No account has ever been too small to receive careful attention. We appreciate small accounts! Every customer means another ardent supporter. The money value of an account has always been subordinate to the useful service able to be rendered to the public.

THE OTHER MAN

WILL SAVE YOUR MONEY IF YOU DON'T.

It is easy to spend money; in many instances it is wise. Penurious saving is not thrift. A man who will deny his family or himself the necessities of life is not a thrifty individual.

However, there is a thought quite worthy of your consideration:

A DOLLAR NEVER RESTS UNTIL IT IS SAVED. Money will travel until it reaches the hands of a saver. Many of your dollars are now drawing interest in another man's savings account.
