Use High Analysis Fertilizer and Make every acre do its best.

Years ago our forefathers made bumper crops without the aid of commercial fertilizers. That was when the lands were new and rich in plant food. That day has passed, just as sure as the successful farmer is getting away from the use of low analysis fertilizer and replacing it with the higher.

WHY?

- LESS Labor. MORE Time to fight insects. LESS Hauling. MORE Plant food. Freight to pay. MORE Profits. Bags to handle. LESS Bags to buy.

Make your 1925 crops a success by using

High Analysis Fertilizers 12-4-4 or 15-5-5.

LIGHTS ON HORSE DRAWN VEHICLES

Raleigh.—The house has struck its stride and put through a measure requiring all horse-drawn vehicles on state maintained highways to display a light at night. All amendments extending counties were voted down.

After representative Neal, of McDowell author of the bill to require lights on horse drawn vehicles, announced that he would accept the amendment offered by Representative Massenburg, of Franklin, to limit its application to state built and state maintained highways, Chairman Turlington, of the roads committee, took charge of the bill for its adoption and put it through without amendment extending any counties. It was the first legislative fight of the session.

The fight on the measure began with the offering of an amendment by Representative Madison, of Jackson, exempting a dozen or more counties in the western and eastern section of the state. Thereafter were plenty of amendments until it seemed that all the counties in the state were about to be exempted.

Motion to Table Passed. Ervin, of Burke, moved to table, but it was voted down 46 to 59 after a division had been called for. Thereafter the discussion centered around the question of whether or not to

make it statewide. The majority were for statewide regulation, but if it wasn't made statewide then they wanted their counties exempted.

Bellamy, of New Hanover, the one county that has such law for all roads said it worked well there. Neal, of Caswell, wanted something done about it, but had exempted his county because others around him had asked to be exempted. He was ready to vote for a straight state measure.

Dr. H. M. Eddleman, of Gaston, and Patton of Durham, were eloquent in their appeals for protection for life and property. They emphasized the point made by Turlington that it was not so much the driver of the automobile that needed protection as the drivers of buggies and wagons.

There was a lot of talk about the legislators being afraid of the people at home, and this brought from Ward of Duplin, the assertion that he was afraid of nothing but that he was thinking of the farmer, who because of his failure to have a light might be held, under the law, guilty of contributory negligence in the event of injury. If a provision that the failure to have lights displayed should not be considered as contributory negligence in the event of injury, but only to be considered as such if there are other facts to justify it, he would support the bill.

Floor Leader Turlington, was quick to accept this amendment and it was put into the measure. It is the same as that in the railroad stop law.

Change of Life

"When change of life began on me," says Mrs. Lewis Lisher, of Lamar, Mo., "I suffered so with womanly weakness. I suffered a great deal of pain in my back and sides. My limbs would cramp. I didn't feel like doing my work, and there are so many steps for a woman to take on a farm. I was very anxious to get better. A friend recommended

CARDUI

The Woman's Tonic

to me and I began using it. I certainly improved. I went through change of life without any trouble. I can highly recommend Cardui." At this time, great changes take place in her system, causing various painful and disagreeable symptoms.
