Shelby's Building Program.

Shelby is building houses at a rapid rate. Beautiful homes greet you on every Shelby street as you ride by. Building a house is one of those romances that, however expensive and bothersome, can be a great experience if you go into it right. You can enjoy it all alone; it really needs a wife or a husband to plan and argue with and of this romance the planning and arguing are, perhaps the most enjoyable part. They are fascinating as any anticipation is fascinating.

Mrs. O. M. Mull Entertains Chicora Club.

At Mrs. O. M. Mull's beautiful home which has been all remodeled and redecorated inside recently, the Chicora club held its tri-monthly meeting with Mrs. Mull as its hostess. The rooms were thrown together and with their elegance and the lovely potted and growing plants, made a rare scene of beauty. Quite a number of the members took advantage of the beautiful sunshine and assembled at this meeting. The program was most interesting having for its subject: "Education." After the roll call and current event, Mrs. W. F. Mitchell in the absence of Mrs. James L. Webb opened the program by reading Mrs. Webb's paper on "Henry Adams"—this was followed by Mrs. Thomas Paul Webb who gave an interesting presentation of "Brander Matthews." Mrs. T. W. Ebeltoft then concluded the program with one of her delightful papers, it being, Herbert Spencer. The hour was then turned into a social one and while conversation was being enjoyed among the members, Mrs. Mull assisted by her mother and sisters served the most elaborate and delicious refreshments.

The "Looker On" Writes Of Comfort.

One of these days, when we have nothing else to do, we would like to write a history of Comfort, its rise, development and its misconceptions. Disraeli once said that the English mistake comfort for civilization. The same dictum applies to Americans. We have perfectly appointed bath rooms—and a rising murder rate. We

have elevators, and motors for the masses and child labor permitted in some states. We have more telephones, and more divorces per capita than any other nation. We have rocking chairs and lynchings! This history of comfort would be a history of horrors. Men began to build for comfort and pleasure in Queen Elizabeth's time, before that time the houses were often built for defense. At the end of the 16th century, spaciousness, magnificence, cheerfulness and dignity were produced in houses, but convenience was neglected. Nothing much was done for comfort in the disposition and arrangement of rooms during the 17th and 18th centuries. Owners then were more concerned with getting vast effects. At this time Pope remarked, "The very fine, but where d'ye sleep and where d'ye dine?" From this point on, our story would be the story of mechanics and how they have improved comfort. But, alas it would not be a history of civilization!

A lovely club hospitality extended the Ishpenings Friday afternoon when Mrs. C. B. Suttle was the charming hostess to this band of young women. The hour was 3:30 and at the appointed time a large number were in attendance. The rooms were cozy and alluring with their open fires and lovely pots of growing plants. The program subject was "Gardens" and Mrs. Grady Lovelace introduced "Roses and Rose Gardens" and told in a most interesting way about these queenly flowers and other growth. Next came "Lilies and the Garden" and Mrs. George Moore handled those stately flowers quite beautifully. Mr. F. D. Quinn then completed the program with lovely music.
