Elliott Tells Of Cleveland's Records

(J. C. Elljott in Charlotte Observer.) Cleveland is a boosting, boastful, bragging county. We have the best farmers, best churchmen, best sportsnen, and the best politicians, finanders, industrials, with 22 cotton mills, three oil mills and two creameries; make corn to sell, with 40,000 bales of cotton, and we buy more Western mules, flour, oats and hav. In addition re have more dogs-the best fox nounds, and import more foxes and Geoargia negroes. South Mountain and Cherry Mountain have been staked with red foxes for several years. But we want to hunt in automobiles, our best sportsmen imported six young red foxes and turned them loose on the river between Polkville and Casar, and let the foxes mature until the first of December, then all the clans began chasing them, and have kept it up every favorable night and day since. The last light moon gave the best weather and the sport went on every night and part of the day until all the dogs were run down. Scores of automobiles filled the roads, hearing he races, up and down the east side of the river for several miles, the dogs never getting out of hearing. With crack packs of dogs, including the DePriest and Walker dogs that won the prize at the state meet last

year near Kinston. Among our sports-

men are Palmers, Lattimores, Griggs,
