The Star Publishing Company, Inc.  
 LEE B. WEATHERS President  
 RENN DRUM Local Editor

Entered as second class matter January 1, 1908, at the postoffice at Shelby, North Carolina, under the Act of Congress, March 3, 1879.

We wish to call your attention to the fact that it is, and has been our custom to charge five cents per line for resolutions of respect, cards of thanks and obituary notices, after one death notice has been published. This will be strictly adhered to.

FRIDAY, AUGUST 14, 1925.

All America lacks owning 85 per cent of the world's automobiles is several installments.

Two North Carolina Senators to stay in indefinitely," reads a headline. Considering announced prospects we agree.

The fellow who wondered what Caruso would have been without his voice, might ask the same question about the mosquito's vocal cords.

Our favorite newspaper says that Calcutta has only 470 women to each 1,000 men. Now we can understand certain parts of Kipling better.

Our theory of evolution is that 30 years from now the present-day flappers will be howling about the indiscreet new generation.

American progress during a score of years is best expressed by the Chickasha Express: "Only 20 years ago two-thirds of the people were wondering how to pronounce garage."

Col. Wade Harris, who says that the modern Ku Klux Klan is not equal to the old clan because it gets too much publicity, should remember that publicity artists are more numerous now than in reconstruction days.

Report has it that Bud Fisher, creator of "Mutt and Jeff" passed through Shelby last week. We presume he didn't make his identity known because Judge Shaw failed to name Mutt and Jeff in his university reply statement.

**A NICKEL'S WORTH OF GAS.**  
 Few of us stop to think that the little gas engine, mother of the tractor and motor truck, and grandmother of the mere fashionable and faster-stopping automobile, motor boat and airplane, is still one of the greatest factors in making today's living standards for America what they are. The gas engine does the every day drudgery task, and dirty jobs, says the Research Department of the National association of Farm Equipment manufacturers.

For five cents, a nickel, a gas engine will separate 8,000 pounds of milk at the proper speed to get the most cream. It will pump 6,000 gallons of water, guaranteeing to man and beast this most necessary life-maintaining fluid while protecting the health of the household. That nickel's worth of gas will shell 50 bushels of corn for cattle, chickens, etc.; it will grind 12 bushels of feed, cut 2 tons of ensilage, saw 2 cords of wood, churn 400 pounds of butter, bale a ton of hay, clean 60 bushels of wheat for seed, light up the farm for four hours, do weekly washings for the family, or grind the mower knives for the season.

Whether the gas engine is 1 1/2-horsepower or larger, is merely a matter of the size of the job. The average farm equipped with two or three sizes can cut its operating cost quite materially and always has a reserve power of many "hired men" who are not eating when not working and when working only so little it doesn't count; yet these invisible hired men are willing to work on Sundays, holidays, in the evening, or whenever called upon to do their jobs.

**GIFTS OF THE RICH.**  
 Hardly a week passes but what there is some announcement of a gift by some wealthy man or woman to charity and education and it is but fitting that those who accumulate a goodly portion of this world's goods should turn it back into channels of usefulness for others. Mr. Duke recently made the largest gift ever made by a Southern man when he contri-

buted forty millions to charity, religion and education and since then, men of smaller means have followed his example. Mr. E. D. Latta, one of the pioneer builders of Charlotte, gave more in proportion to his wealth than Mr. Duke and his wealth will serve to help those in affliction, heal and help. Employees who helped Duke and Latta earn their fortunes may not profit from the estates, but they have the satisfaction of knowing that it will benefit humanity in the years to come. There recently died in Danville, Va., Mr. John E. Hughes, successful tobaccoist. He was a bachelor and generally regarded in his business dealings as one who would insist on having the better end of the bargain. Having no children of his own, the urchins of the street never commanded his notice, but when his will was read, it astounded the public by providing three million dollars for an orphanage to be erected on his country-estate near Danville. This institution will be for orphan children of North Carolina as well as Virginia and when it is completed it will be one of the finest institutions of its kind in the South, with an endowment sufficient to operate through the years to come. You can never tell from a man's every-day life whether he will be a philanthropist or miser.

Cleveland county does not have a Duke, Latta or Hughes, but we have many men of means sufficient to make happy the lives of little children through a park or play-ground, broaden the usefulness of Boiling Springs high school or enable the Shelby hospital to care for charity cases. A few thousand dollars left to such causes in a county where such has never been done before, would carve his name indelibly on the hearts and in the minds of Cleveland citizenship.

**Texas Letter Tells Of Crop Destitution**

Cleveland folks, who have been complaining about the dry spell that prevailed during the months of June and July, should be thankful that they live here instead of in the state of Texas. Mr. J. C. Brooks, a son of Mr. Samuel Brooks, who formerly lived in Cleveland county, says that rain in Texas is getting to be almost as much of a curiosity as a two-seated surry on the corner of Broadway and Fifth avenue. Mr. Brooks has been living in McGregor, Texas for several years, and in a letter written to his brother last week, he states that the crops down there are absolutely worthless. He had 200 acres of fertile land planted to cotton, and he said he would be willing to sell the entire crop for 25 cents. The grain was just as bad, since he did not even take his binder to the field.

However, Mr. Brooks, who lives on route 5, states that not all of the crops in the state are in the condition that his are. Spots here and there have had rain, a though nowhere has there been an over supply. It seems that there has been a general drought all over the Southern states, with little relief except in certain sections.

However, the cross-word puzzle has not taught us any words that are useful in changing a tire.—Little Rock Arkansas Gazette.

**Double Shoals Mill Buys Group Insurance**

(Extension Service.)  
 New York, Aug. 12.—The Double Shoals Manufacturing company maker of cotton yarns at Shelby, N. C., has signed contracts with the Metropolitan Life Insurance company, which provides group insurance for its employees totaling approximately \$50,000 in addition to health and non-occupational accident benefits.

The policies were written on co-operative basis, the employees sharing the cost of the insurance with the employer. Each female employee, who contributes toward the payment of the premium, is insured for \$500; contributing male employees for \$1,000. Should any employee become totally and permanently incapacitated before age sixty, he will receive the full amount of his life insurance in equal monthly installments.

In the event of illness or non-occupational accident, an insured employee will receive weekly sick benefits for a maximum of 26 consecutive weeks.

Supplementing the actual provisions of the contracts, which include exemption from medical examination, the Metropolitan Life distributes without cost to insured employees pamphlets on health subjects such as "Let Vaccination Keep Smallpox Out of Your Home," "Eyesight and Health," "Accidents in the Home and How to Prevent Them" and many others of equal interest.

Since worry makes a man bald who can't he worry with his chin instead of his head?  
 The man who declines to be snared soon becomes an old bachelor regardless of his age.  
 Vision tests may be applied for automobile drivers but teh blind pedestrian goes on unrestrained.

**Johnson City Gets Big Textile Plant**

New York Capitalist to Build Seventeen Million Rayon Factory at Historic Sycamore Shoals.

The following story sent out from Johnson City, Tenn., under date of August 3rd is from the Knoxville Sentinel of that date:  
 Definite announcement was made here this morning that the American Bemberg company a seventeen and one-half million dollar Delaware corporation has selected Johnson City as the location for their huge textile operation, construction to start at once.

New York capitalists interested in the company include Herbert Lehman, Jacob Straus, Dr. Arthur Mowhurf, Jacques Hartogs and Myron Falk.

For more than a year representatives of this company have been inspecting sites throughout the south, a number of cities having been under consideration. Approximately twelve hundred acres will be required, the Johnson City location having been selected on account of superior transportation facilities, the presence of several necessary raw materials, ample labor, pure water, and other items, it was stated. The site of the new plant will be in the Watauga valley at historic Sycamore Shoals, where John Sevier gathered his mountain riflemen during the stirring days of '76 and marched to the battle of Kings Mountain. The tracks of the East Tennessee and Western North Carolina railway pass through the tract which is bounded on the other side by the paved highway from Johnson City to Elizabethton Tenn.

Rayon, an artificial silk, will be manufactured, the company being closely affiliated with I. P. Bemberg company, of Barmen, Germany, and the Vereinigte-Glanstoff-Fabriken interests of Elberfeld, Germany. The same organization operates a plant in Germany employing 24,000 persons and is now constructing plants in both Italy and France, each of which will require 15,000 operatives.

**Mr. and Mrs. Clyde R. Hoey Delightful Hosts.**

Mr. and Mrs. Clyde R. Hoey were delightful hosts at a beautiful rock party at their lovely home on Tuesday evening at 8:30 o'clock. Exquisite roses in all their summer beauty graced tables, mantels and book cases, and on the vine-clad porch embedded in roses and greenery most delicious punch was dispensed to the arriving guests by Mrs. L. P. Hennessy. Five tables of rock was played, attractive flower score and place cards being used. At the conclusion of the evening Mrs. Hoey served the most delicious and tempting refreshments. Dr. and Mrs. John Watts of Austin, Tex., the delightful house guests of Mr. and Mrs. Oscar Suttle, were the inspir-

ation of this enjoyable party.

**Miss Nancy Wright Dies, Near 93 Milepost**

(Special to The Star.)

The spirit of Miss Nancy S. Wright better known as "Aunt Nance" took its flight on August 10th 1925, and went to be with the God who gave it. To know aunt Nancy was to love and honor her. Had she lived until next month she would have passed her 93rd milestone in life. She was a kind and affectionate neighbor, always ready and willing to do her part in life toward helping the poor and needy. She professed faith in Christ and joined the church in girlhood at old Salem Methodist Episcopal church where she lived a devoted life to her God until the church was organized at Fallston, she being a charter member, where she lived a faithful member for about 80 years. She loved her church and pastor, always so glad for all ministers to visit her and read the Word of God that she might know the way of life everlasting "Aunt Nance" was never married, and was the last surviving member of the immediate family.

She lived with her nephew Mr. A. B. Wright and daughter Miss Minnie, who was very much devoted to each other, as she had the care of Aunt Nance.

Aunt Nance was laid to rest at Eades church beside her sister and brother and other friends who had preceded her over the Jordan of death. The funeral was conducted by her pastor Rev. J. H. Green assisted by Rev. L. E. Stacy and Rev. J. M. Morgan.

**Mrs. J. Frank Jenkins Gives Beautiful Porch Party.**

Entertaining delightfully and informally Mrs. J. Frank Jenkins was the charming and gracious hostess to her neighbors and a few friends with a lovely porch party on Tuesday afternoon, honoring her house guest, Mrs. Perry Jenkins of Tarboro. The wide and inviting porch was charmingly arranged with floor and wall baskets holding golden sunflowers and the porch tables were most artistic with their rustic baskets holding these same flowers. Comfortable chairs, pleasant conversation and sewing made the afternoon one of enjoyable happiness. The needle work progressed slowly for Mr. and Mrs. Dale Laughinghouse's splendid and beautiful baby centered the attention of the guests. When the sewing was laid aside and the afternoon waned, Mrs. Jenkins assisted by her lovely daughters served an elegant and delicious salad and sweet course.

**Miss Olive Singleton Charming Young Hostess.**

Honoring her charming young house guests, Misses Lucile Hawkins, and Geraldine Ballenger, of Spartanburg, S. C., Miss Olive Singleton entertained a number of her friends with a motor party to McBrayer Springs where a most delightful evening was spent. A watermelon cut was much enjoyed, and singing and playing around this beautiful old place was indeed a pleasure. At 10:30 the guests returned to town. They were chaperoned by Miss Singleton's parents, Mr. and Mrs. Friday, Mr. and Mrs. Charles McBrayer and Mr. and Mrs. Flay Hoey.

**KLANSMEN TO CELEBRATE AT GASTONIA ON FRIDAY**

Gastonia, Aug. 17.—Thousand of klansmen and klanswomen from North and South Carolina are expected to gather in Gastonia Friday for a big open air demonstration, the local Klan officers having prepared an intensely interesting program for both the public and the visitors.

"We are going to have the biggest crowd in Gastonia that has ever gathered here," says one of the local officers. A total of 100 candidates are to be naturalized at the fair grounds Friday night. This will be followed by a big barbecue supper.

**EXECUTOR'S NOTICE.**

Notice is hereby given that I have this day qualified as executor of the will of J. P. Philbeck, deceased, late of Cleveland county, N. C., and all parties indebted to her estate will make immediate payment to the undersigned and all persons having claims against said estate will present them to me properly proven for payment on or before August 11th, 1925, or this notice will be pleaded in bar of their recovery. This August 11th, 1925.

FRANK SPERLING, Executor of the will of J. P. Philbeck, dec'd. Ryburn and Hoey, Attys.

**CHIMNEY ROCK TERRACES**

**BEAUTIFUL BUSINESS AND RESIDENTIAL LOTS**

Located directly opposite the Rock, extending from the village to the head of Lake Lure on both sides of State Highway No. 20, facing Broad River. This is the first season any of this property has been offered for sale in 40 years.

—CLIMATE AND SCENERY—

This property is where nature did her best—unexcelled cyclorama of mountain scenery—Hickory Nut Falls, Devil's Head, Pulpit Rock, Moonshiner's Lookout, Chimney Rock, Beautiful Broad River, Lake Lure and other wonderful mountain scenes too numerous to mention.

The possibilities of this property as an investment are unexcelled in the entire country owing to the colossal development of CHIMNEY ROCK MOUNTAINS, INC., on Lake Lure and their immense estate. Investors are buying from many other states.

We have blue prints in our office and will be glad to show to any persons interested.
