Character is builded upon habits and habits are the offspring of thought. "As a man thinketh, so is he."

Think in terms of thrift; form the habit of thrift, and though the earth trembles and your mountains fall, you will be able to build new mountains—mountains of success possibly built upon the crumbled plans of earlier endeavor.

ABOUT FROGS AND THINGS

Optimists are alright-when they don't overdo things.

They say an optimist is a man who will order oysters at a restaurant, expecting to find a pearl with which to pay for his lunch.

But this story is to be about frogs. We don't vouch for the story, but it sounds reasonable.

Once there were two frogs.

Both of them fell in a churn.

Both of them made desperate efforts to get out. After repeated trials and as many failures, one of the frogs surrendered to that which seemed to be inevit-

able, and drowned in the milk. But the other frog kept kicking.

He kicked and he kicked in his efforts to scale the walls of the churn.

The result was that the milk was churned to butter, upon which the frog climbed, and jumped to safety. Frog number one was a quitter. Frog number two

Be an optimist, but don't expect things to happen unless you help them along.

Start a savings account. It may seem slow and difficult at first-but-remember the frogs.

We particularly recommend our certificates of deposit, at this season. They bear four per cent interest, from any date for any length of time, provided the deposit remains three months.
