**Claims He Wrote The Wreck Of '97'**

Danville, Va., Sept. 22.—Fred Lewry, of Concord, N. C., is claiming authorship of the now famous railway thorship of the wreck of No. 97, and he writes that he will seek to establish that claim so as to derive the accrued royalties from the sale of the widely sold record. A week or two ago, a representative of a recording company was in Danville for the purpose of discovering who really wrote the song. He said that it was important to discover the truth as the company which made the records does not know to whom the royalties from the sale of the records should be paid.

Local railway men among whom he discussed the matter could not shed much light on the song. All they knew was that it had been whistled and sung in the roundhouse for years and that they were under the impression that Henry Whittier of Carrol county was the author.

Lewry says that it was composed by him in November, 1903 and that he set down the words to fit the cadence of the tune to "The Ship That Never Returned," it took him a month to compose it and with his guitar he used to sing it to cotton mill folks and for dances.
