MONEY YOU DON'T WORK FOR WONT WORK FOR YOU.

The fatal quality of so-called "easymoney" is that you can't keep it.

Thousands who today are making "easy-money" in inflated securities and land booms will some day see their profits fade away much faster than they appeared.

The investor, whether large or small, who buys such shares as ours on an earning basis, will avoid the perils of speculation and will be resting securely while the "easy-money" speulator will have only recollections to enjoy.

Our November Shares are being rapidly subscribed for. Better invest.
