Mr. Martin Walker of Hillsboro, Ga., is visiting home in this section. Mr. Charles Hawkins has been here visiting also.

Mr. Stough A. Davis has accepted a position with the Bessemer Cash grocery store, at Bessemer City.

Miss Beatrice Gold of near Lattimore, visited Miss Evelyn Daves Thursday.

The people of Sandy Plains church pounded the pastor, Rev. G. P. Abernethy. He received enough pounds to last him and his family for some time.

ORDER OF SCHOOL ELECTION, ELLIS SCHOOL DISTRICT.

Whereas, a petition has been presented to the Board of Commissioners, of Cleveland County, signed by more than 25 qualified voters within the Ellis school District, the metes and bounds of which are hereinafter set forth, requesting this Board to order an election in the territory embraced within the boundaries of said proposed Local Tax District, the exact metes and bounds of which proposed Local Tax District are as follows:

Beginning at the point where Mill Branch empties into Buffalo Creek; thence in a northerly direction including the John Shuford place and others to the Patterson Springs line; thence East with the Patterson Springs line to the Pleasant Hill line at Kendrick Branch; thence in a Southwesterly direction with the said Kendrick and Cal-Pen branches to Buffalo; thence Southeast with Buffalo Creek to the beginning.

To ascertain the will of a majority of the qualified electors residing in said district upon the question of levying a tax in the said boundaries not exceeding thirty (30) cents on the One Hundred Dollars valuation of property, both real and personal in said district, and whereas, said petition has been duly approved and endorsed by the County Board of Education.

Now, Therefore, the Board of Commissioners of Cleveland County at their regular session held on Monday, January 4th, 1926, do grant said petition and order that an election be held at D. A. Blanton's residence in the aforesaid district on Monday, February 22nd, 1926, for the purpose of ascertaining the will of the electors within the proposed special school tax district upon the question of levying a special tax not exceeding thirty (30) cents on the One Hundred Dollars valuation of all property, both real and personal, in the said district, in addition to the county tax for six months school term.

It is further ordered that D. A. Blanton be and he is hereby appointed Registrar of said election and that he be furnished with a copy of this order, and that Rollins Camp and Trent Allen be and they are hereby appointed Judges of the said election.

It is further ordered that at said election those who are in favor of levying a special tax in said district to an amount not exceeding thirty (30) cents on the One Hundred Dollars valuation of property, both real and personal, in said district, shall vote a ticket on which shall be printed or written the words, "FOR SPECIAL TAX," and those who are opposed shall vote a ticket on which shall be printed or written the words, "AGAINST SPECIAL TAX," it being understood that if a majority of the qualified electors at said election shall vote in favor of said special tax, then said boundaries shall constitute a special school tax district known as Padgett Special School Tax District, in which a special tax not exceeding fifty (50) cents on the One Hundred Dollars' worth of property may be levied for school purposes.

It is further ordered that a new registration of voters residing within said special tax district shall be had that the registration books shall be kept open between the hours of 9 A. M. and sunset on each day, except Sundays, for twenty days preceding the day for the closing of the registration books, for the registration of any electors residing within the aforesaid boundary and entitled to register, and that said books shall be opened for registration on January 14th, 1926, and close on Saturday, February 13th, 1926, before said election and that on each Saturday during the period of the registration the Registrar shall attend with his registration books at the polling place in said district for the registration of voters and that on the day of the election the polls shall be kept open from sunrise to sunset and the election shall be held as near as may be under the law governing general elections.

It is further ordered that after the closing of the polls the Registrar and poll holders shall duly certify over their hands the number of registered voters at said election and the number of votes for and against the special tax and transmit same to the Board of Commissioners, the same shall be filed, and the Board of Commissioners shall canvass and judicially determine the result of said election and record such determination on their records.

It is further ordered that, after the closing of the polls, the Registrar and poll holders shall duly certify over their hands the number of registered voters at said election and the number of votes for and against the special tax and transmit same to the Board of Commissioners, the same shall be filed, and the Board of Commissioners shall canvass and judicially determine the result of said election and record such determination on their records.

It is further ordered that due publication of this order and of said election and new registration be made by publishing this order in the Cleveland Star once a week for three weeks, the first publication hereof to be made on January 8th, 1926. Signed by the Board of the Board, This January 4th, 1926.

SPECIAL SCHOOL TAX ELECTION NOTICE. Whereas, a petition has been presented to the board of commissioners of Cleveland County, signed by more than 25 qualified voters within the proposed special school tax district, the metes and bounds of which are hereinafter set forth, requesting this Board to order an election in the territory embraced within boundaries of said proposed school tax district, said boundaries comprising the present boundaries of Padgett now Local Tax District No. 43, the metes and bounds of which special school tax district are as follows: Beginning with the Rutherford County line on the Northeastern corner of the Mooresboro District; thence with the Rutherford County line to the New House District at Columbus Jones; thence East with New House line excluding the farms of Fay Whitaker, Jones Allen, Asberry Wiggins, Phillip Whisman, and Mrs. Wolfe to McKinney Creek; thence South with said creek to the Lattimore line including the McKinney farm; thence with the Lattimore line to the beginning; To ascertain the will of a majority of the qualified electors residing in said district upon the question of creating a special school taxing dis-

trict comprising the said boundaries and of levying a tax of not exceeding fifty (50) cents on the One Hundred dollars valuation of property, both real and personal, in said district, and whereas, said petition has been duly approved and endorsed by the County Board of Education.

Now, Therefore, the Board of Commissioners, of Cleveland County at their adjourned session held on Monday, January 4th, 1926, do grant said petition and order that an election be held at Cletus Walker's Store, in the aforesaid district, on Monday, February 22nd, 1926, for the purpose of ascertaining the will of the electors within the proposed special school tax district upon the question of levying a special tax, not exceeding fifty (50) cents on the One Hundred Dollars valuation of all property, real and personal, in said district, in addition to the county tax for the six months' school term.

It is further ordered that Cletus Walker be and he is hereby appointed Registrar of said election and that he be furnished with a copy of this order, and that W. B. Petty and Roy Padgett be and they are hereby appointed Judges of said election.

It is further ordered that at said election those who are in favor of said boundary becoming a Special School Tax District and of levying a special school tax in said district to an amount not exceeding fifty cents on the One Hundred Dollars valuation of property, both real and personal, in said district, shall vote a ticket, on which shall be printed or written the words, "FOR SPECIAL TAX," and those who are opposed shall vote a ticket on which shall be printed or written the words, "AGAINST SPECIAL TAX," it being understood that if a majority of the qualified electors at said election shall vote in favor of said special tax, then said boundaries shall constitute a special school tax district known as Padgett Special School Tax District, in which a special tax not exceeding fifty (50) cents on the One Hundred Dollars' worth of property may be levied for school purposes.

It is further ordered that a new registration of voters residing within said special tax district shall be had and that the registration books shall be kept open between the hours of 9 A. M. and sunset on each day, except Sundays, for twenty days preceding the day for the closing of the registration books, for the registration of any electors residing within the aforesaid boundary and entitled to register, and that said books shall be opened for registration on January 14th, 1926, and close on Saturday, February 13th, 1926, before said election and that each Saturday during the period of registration the Registrar shall attend with his registration books at the polling place in said district for the registration of voters and that on the day of the election the polls shall be kept open from sunrise to sunset and the election shall be held as near as may be under the law governing general elections.

It is further ordered that after the closing of the polls the Registrar and poll holders shall duly certify over their hands the number of registered voters at said election and the number of votes for and against the special tax and transmit same to the Board of Commissioners, the same shall be filed, and the Board of Commissioners shall canvass and judicially determine the result of said election and record such determination on their records.

It is further ordered that, after the closing of the polls, the Registrar and poll holders shall duly certify over their hands the number of registered voters at said election and the number of votes for and against the special tax and transmit same to the Board of Commissioners, the same shall be filed, and the Board of Commissioners shall canvass and judicially determine the result of said election and record such determination on their records.

The DAIRY

SEPARATORS HAVE MANY ADVANTAGES

It is practically impossible to produce cream of good quality for butter making without a cream separator, say the dairy specialists of Clemson college, who give below some points on the type of machine to buy and some of the advantages of a separator.

In purchasing a separator, the first consideration is to select a standard make, that is, a machine manufactured, sold and guaranteed by a reliable company which makes separators for use rather than for sales purposes. The standard machines are constructed on sound mechanical principles and are made of good material.

When a machine sells for a very low price it is usually because of cheap materials and poor workmanship. These types are short lived, as the materials from which they are constructed are low grade and soon wear enough to cause considerable loss of butterfat in the skim milk. This loss will increase as the use of this type of separator is continued. The loss in butterfat because of poor separation, if saved, would pay the difference in price in a few weeks.

Standard separator companies maintain a service in communities where their separators are in use, and are always glad to keep their machines in good repair and efficient running order. If a farmer is not acquainted with standard makes of separators, he should consult his creamery manager before making a purchase.

The advantages of the centrifugal cream separation over the gravity or hand skimming-separation are as follows:

- 1. The range of temperature and condition of milk at which the cream can be successfully separated is much greater than that for successful separation by the gravity method.
2. A much better quality of cream can be obtained, as the separation can be done before the milk gets old, while by the hand-skimming method the time required for efficient separation is so long that the cream deteriorates somewhat before it is removed from the milk.
3. As much as one-fourth of the butterfat is often lost by the gravity method, while an efficient cream separator will not lose more than one-hundredth of 1 per cent in the skim milk.
4. The thickness of the cream can be regulated to suit requirements, while by the gravity method the thickest cream that can be obtained is about 20 per cent butterfat. It is best to produce cream testing 35 to 40 per cent butterfat for shipment to the creamery.
5. Many impurities and undesirable germs are removed, while by the gravity method exposure to impure air is likely to contaminate the milk with germs, and promotes the action of undesirable bacteria.
6. The skim milk is left in a more natural condition, thus making it more suitable for feeding purposes.

Alfalfa Compared With Bran for the Dairy Cow

The hay produced from the average acre of alfalfa in Wisconsin has as much food value for dairy cows as three tons of bran," is the opinion of D. Graber, alfalfa specialist of the Wisconsin College of Agriculture.

That the dairymen are realizing the value of alfalfa is evidenced by the large increase in acreage devoted to alfalfa. In 1923 Wisconsin farmers raised 150,000 acres. The 1924 acreage had increased to 267,000 acres, and the new seedlings last year will bring the acreage to about 400,000 for 1925 season.

The high lime and protein content of alfalfa hay is what makes it valuable as a feed, as these nutrients are low in most home-grown feeds and must be supplied by purchasing expensive concentrates.

In tests conducted by experiment stations, it has been found that where alfalfa has been substituted for bran in the ration a slight increase in milk now has resulted.

Value of Alfalfa Meal

On account of many inquiries with regard to the feeding value of alfalfa meal a test was made at the Central Experimental farm with a group of Ayrshire and Holstein cows. The cows were fed standard rations of corn silage, clover hay and meal, the meal being partly composed of either bran or alfalfa meal. The alfalfa meal in the test did not prove as valuable as a feed for dairy cows as bran, but this depends a good deal on the price paid for each. If the alfalfa meal can be bought at a price some 10 to 15 per cent lower than bran, it pays more economical.

Fence-Breaking Habit

When cows have once learned the habit of breaking through a fence, it is hard to break them of it. There are two things that you can do and these are first to feed the cows all they will eat and the other is to put more wires on your fence. The wires should be so tight and so close together that the cows cannot get their heads between. On the other hand when cows are fed all they want to eat, they will want to lie down and chew their cud.

QUITE POPULAR USE FOR WHIPPED CREAM

Favored as Sauce or Garnish for Desserts.

(Prepared by the United States Department of Agriculture) One need not laugh at the predilection of the average high school or college girl for dishes dressed up with whipped cream. As a matter of fact, whipped cream is not merely a garnish, but a valuable food which deserves to appear frequently in the menu, points out the United States Department of Agriculture.

A popular use for whipped cream is as a sauce or garnish for desserts, especially those made of gelatin. On cake or pie, steamed puddings, ice cream, canned fruit and sweet fresh fruits it adds both food value and flavor. Charlotte russe is merely sponge cake dressed with whipped cream. Gingerbread topped with whipped cream becomes immediately aristocratic. On hot chocolate or cocoa, flavored sweetened whipped cream is usually expected because these drinks are served that way at soda fountains, where whipped cream is also used to garnish the glass of soda

Beaten Into Mayonnaise Dressing.

water or to top off a sundae. Bavarian cream is a combination of custard and whipped cream stiffened with gelatin, and flavored with vanilla, coffee, pineapple, chocolate or other flavors, according to individual preference.

A spoonful of unsweetened whipped cream on chicken or other light soups often serves to tempt an invalid or capricious taste. Cream or cottage cheese can be blended with unsweetened whipped cream, nuts and pimientos and stiffened with gelatin to make an unusual lunch dish; whipped cream can be beaten into mayonnaise dressing to make it richer and fluffier for use on fruit salads.

The most satisfactory cream for whipping is raw cream with a butterfat content of 30 per cent or more. Of course any raw cream used should be of high sanitary quality. Pasteurized cream can be whipped as well, if slightly higher in butterfat; but homogenized cream will not whip nearly as well. If homogenized cream has also been pasteurized its whipping quality is further reduced.

Children Like Rice and Cherries as a Dessert

Here is a dessert the children will like. The rice can be cooked at any time, and combined with the cherries and cream in time to be well chilled. The United States Department of Agriculture suggests using:

- 1 cupful cream, rice (salted) whipped (vanilla) 1 cupful cherries, 1/2 dash of cut in half (salt) 1 cupful powdered sugar

Cook the rice so the grains will be large, dry, and fluffy. Add the sugar, the fresh fruit, and the whipped cream. Chill thoroughly before serving.
