FIRE IN PRINCESS
THEATRE SATURDAY

Several reels of the film Charlie
Chaplin in the "Gold Rush" were
burned and other damage resulted Saturday
evening from a small fire that
started in the Princess theatre shortly
after 6 o'clock.

The fire, which started in the operators
room, created quite a bit of ex-
citement and quite a large crowd gathered
at the scene as firemen and others
extinguished the blaze with chemicals.

Mr. Zeb Beam, one of the owners,
was operating the machine at the time
when the blaze suddenly leaped out of
the machine. Those in the theatre
were warned of the blaze and the
alarm turned in as the result of
which there were no serious mishaps.

The burning film in the operators
room created a considerable gas that
handicapped the work of extinguishing
the fire. Lights and a lantern
failed to burn in the room owing to
gas and W. D. Babington, Jr., one of
the volunteer firemen, was overcome
with the fumes shortly after entering
the room.

A line of hose was placed to the top
of the big theatre building and played
over portions likely to catch from
the inside, while George Smyrnies
made his way through the smoke to
the room and completely doused the
remaining blaze.

The blaze was not so serious as it
looked the rolls of smoke from the
celluloid films giving it the appear-
ance of a big fire.

Announcement from the theatre
Monday was to the effect that the
show would be back in operation
during the day, although it was im-
possible to continue the regular
show Saturday evening and night.

The damage according to Mr. Zeb
Beam was slight other than the burned
reels.
