- 25th Anniversary -

This year puts me up to 25 years in the painting business. During the 25 years I have studied my trade, taken interest in it in order to be able to give the people the painting they should have for their money. It has always been a pleasure to me to give my customers a real good job. I try to see how good I can do a job and not hurry and slight the job to get my money.

You can rest easy if "QUEEN" does your painting and papering.

Cotton Acreage in Shelby City Limits

Really Fever May Reduce Cotton Crop Shelby Grows Inside Town.

(Stateville Landmark)

Renn Drum, who drums up a lot of interesting stuff for the Shelby Star, advises that folks in Shelby and environs, where a real estate boom is booming, are "not worrying about too much land being planted in cotton this year. The present outlook," says Mr. Drum, "is that much of the cotton acreage is going into sub-divisions." From which it is gathered that the Shelby cotton crop of 3800 bales last year will be much reduced this year, as the cotton patches in the city of springs are being sold by the front foot. Well, may be another season the land will again blossom out in cotton.
