Common Sense laughs or weeps-when it hears some vain man boast that he reached success in sloppy clothes. It can be done of course. But what smart man will use his bare knuckles to batter down the door of success when he might easily turn the knob and walk in?

A good appearance unlocks opposition and allays prejudice. It opens the way to the favor of men and the hearts of women. A man is as successful as he feels, and the "Success-ful" is closely akin to the "success-look." What's on a man's back is in his spirit.
