THEATRES

"Watch Your Wife"—a comedy drama after the new order, is the attraction at the Webb theatre Tuesday.

Pat O'Malley is the co-star of the piece, the cast of which also includes Helen Lee Worthing.

Film producers have found that the comedy drama is the most pleasing form of screen entertainment for the public, and are putting out some notable plays of this character, of which this is one of the best.

The catch line of the piece is—"Honi oit qui mal y pense—which translated means "Evil to him who evil thinks." In other words a woman's acts are subject to interpretation by the hubby, and it is the manner of this interpretation that brings him a kick either for joy or misery.

An addition comedy and News reel appear with the main feature.

Monday (today) a western is on—Bill Cody in "Love on the Rio Grande."

—MONDAY—TODAY—

Bill Cody in "Love on the Rio Grande." A good, fast, entertaining Western—story with a new angle.

—TUESDAY—

A very good picture—"Watch Your Wife" With Pat O'Malley and Virginia Valli.

This is the first appearance of the beautiful MISS VALLI in Shelby in some time. Her's is one of the most attractive figures on the screen.

"WATCH YOUR WIFE" is a comedy-drama, full of surprises and chuckle.

Played by Miss Valli, O'Malley and with Helen Lee Worthing also in the cast—it is an unusually fine and entertaining piece of comedy work.

NEWS REEL and ADDITIONAL COMEDY with the main bill.

APPRECIATES SPLENDID VOTE.

Being unable to see personally all my friends in the county I take this means of thanking those who voted and worked for me. It is very gratifying for one to know that he has so many loyal and true friends. If you did not vote for me I hold no malice or unkindly feeling toward you, and am just as friendly and obliging as I ever was towards the ones who did not vote my way. Respectfully,

E. A. WELLMON.

The ladies were discussing a wedding which took place in their church the previous evening. "And do you know," continued the first and best informed lady of the party, "just as Frank and the widow started up the aisle to the altar every light in the church went out?"

"What did the couple do then?" inquired one.

"Kept on going. The wid knew her way."

Officers Capture Sheet Iron Still

Officers Bob Kendrick and Marshall Moore on Thursday of last week captured a 60-gallon sheet iron still on the Eskridge place on Brushy Creek. About 450 gallons of beer was also captured and destroyed.

Although the operators are not known, some colored men are suspected, it is said.

Cleveland Folks Buy Auto License Slow At Bureau

The new auto license tags for North Carolina present a fine appearance, but apparently Cleveland county folks are in no hurry to get the new plates.

The new auto license tags have been on sale at the Carolina Motor club at Eskridge's garage for two weeks, but today only a little over 250 tags have been sold. Just why auto owners are holding back on purchasing tags is not known. The advance month by the revenue department is for the convenience of auto owners to save a rush around June 30 in buying tags, and officials of the motor club here urge that all motorists who can possibly do so should buy their tags immediately to save a jam on the final days.

Euber Irvin is in charge of the tag sales at Eskridge's and so far hasn't been rushed enough to need an assistant.

THE "PONTIAC" MAKES BOW TO SHELBY

A new star has swum into the ken of Shelby.

Which is a way of saying there is a brand new car on the market—the "Pontiac"—fathered by General Motors, and being offered locally by the Aray Brothers.

The Messrs. Aray assert this is the first car actually produced by General Motors—the product thorough out of General Motors brains and capital. It went on the market at the spring auto show in New York, but has been in the making some two years.

The Arays had two samples of the new vehicle on display Saturday. It may be said to be a peach of a conveyance. A six-cylinder car, made in two models, both closed, and to be put on the market with cars of less than a thousand dollars.

A few of the new models have been seen in town already. But they are a rarity.

The model is low, gives the impression of possessing considerable power and endurance, and is very attractive—having the air of substantiality.
