A Birth—Born to Mr. and Mrs. Sam Ellis June 17, a son Samuel Lee.

Fiddle and Banjo—Everybody likes music. And especially the kind that differs so widely from modern day jazz. Two boys on the court square Tuesday night managed to assemble a crowd of around a hundred with the music they drew from a fiddle and five-stringed banjo—a crowd that drank in all the old pieces, such as "When You and I were Young, Maggie," and "Turkey in the Straw," and several of the newer ones. They applauded loudly at the conclusion of each selection and called for more, until the boys quit. Both were good, but the notes from the five-stringed banjo, rarely seen now-a-days, seemed to carry a special appeal for them. The music was of the type that Henry Ford is trying to revive, and several of the old-timers evidenced a desire to "cut a few figners" to the accompaniment of the rhythm.

Overman Majority Given As 48,346

Raleigh, N. C., June 16.—Senator Lee S. Overman of Salisbury was re-nominated over Robert R. Reynolds of Asheville by a majority of 48,346, it was shown by the complete official vote as announced today by the State board of elections after it had canvassed the vote cast in the primary on June 5.

The vote was: Overman 140,260; Reynolds 91,914.

The total vote of 232,174 was only 2,534 less than the vote cast in the Democratic primary two years ago. Mr. Reynolds carried 25 of the 103 counties in the state and received a larger vote than did J. W. Bailey when the latter sought the gubernatorial nomination two years ago. The heavy vote, almost as heavy as that of two years ago, came as a surprise, "off" years generally showing a comparatively light vote, both in the primaries and the general election.

More Coin In Brains For Colleges Of U. S.

Ithaca, N. Y., June 17.—American colleges put too much money into buildings and not enough into brains is the opinion of Dr. Ernest Cohen, eminent Dutch chemist who is lecturing at Cornell prior to visiting other American universities. Dr. Cohen, who is professor of physical chemistry at the university of Utrecht, and president of the International congress of pure and applied chemistry, believes that although higher education in America is rapidly approaching European standards, the importance of physical equipment is over-emphasized here.

SPURLING THANKS CLEVELAND VOTERS.

To The Voters Of Cleveland County:

I wish to take this opportunity to thank the voters of Cleveland County who were kind enough to give me their support in the recent Democratic Primary for the Office of Solicitor of the Sixteenth Judicial District.

I sincerely trust that I may again rely on these voters for their support in the second primary which will be held on the 3rd day of July. Since Cleveland County will not have a candidate in this second primary, may I ask the voters of my old home county, who supported their local candidate, Hon. C. B. McBrayer, as well as those who supported the other candidates, to cast their votes for me this time? If they will do so I shall greatly appreciate their interest and support in my behalf, and shall certainly be grateful for same.

Again I wish to assure the voters of this Judicial District, that if nominated and elected to this important office, I shall serve them to the best of my ability, and that my DUTY to the State of North Carolina shall ever be uppermost in my mind.

Gratefully Yours,
L. SPURGEON SPURLING
