

LITTLE STARS

Open Bids—Bids will be opened at the city hall tomorrow on a sidewalk paving project which includes the laying of cement sidewalks in various parts of town.

Dixon Reunion—Everybody is invited to the Dixon reunion Sunday, July 25th. The reunion is to be held at the B. G. Logan spring. Everybody come and bring all your friends and a large basket of dinner.

Fire Drill—The regular drill of the Shelby volunteer fire department will be held Tuesday evening at 7 o'clock. Immediately following the drill a business meeting of the department will be held. All members are urged to attend.

Mr. Gold Ill—The many friends of Mr. Frank Gold will regret to learn that his condition is very serious at his home near Zion church where he has been sick for several months. Mr. Gold has been delirious for several days, suffering with leakage of the heart and it seems that he will not be able to recover.

Offered Position—Dr. L. B. McBrayer, father of Dr. Reuben McBrayer, of Shelby has been offered the grand secretaryship of the North Carolina Grand Lodge of Odd Fellows to succeed secretary John D. Berry. Whether or not Dr. McBrayer will accept the important position is not known.

Car Recovered—A Crystler four touring car was "arrested" here on the streets a few days ago by local officers who have learned that the car was rented from the "U Drive Em" company in Asheville and never returned. The men who drove the car to Shelby abandoned it on the streets and Asheville owners were notified to come for it.

Real Estate Deal—The J. B. Nolan company reports a shift in ownership in two Shelby homes. Through this company the Morris Weathers home on North Washington street becomes the property of M. A. Spangler, and the Spangler house on Sumter street is transferred to Mr. Weathers, with a cash consideration. The deal has just been closed.

Soap Will Do It—Soap that is strong with an alkali such as a laundry soap has more uses than as a cleanser. S. W. Conley of the Sharor neighborhood says. He makes a strong solution of soap and water, sprays it on his snap bean stalks and finds that it kills the bean weevil which has been damaging bean patches in Cleveland.

Dr. Gold Operated on—Dr. Ben Gold, prominent young physician of this place was operated on for appendicitis at the Rutherford hospital Sunday and according to a telephone message from the hospital this morning his condition is very favorable. Dr. Gold has been suffering off and on from acute attacks, a severe one coming Sunday which necessitated the operation.

Tree Has Blight—Leaves on one of the pretty trees on the court square, shading the walk which leads from the southeast corner of the court house are withering. Some think it is dying because the roots were cut when the sidewalk was widened, but Hackett Wilson, tree expert, says it is due to a blight which is spreading among other trees on the square.

What Girl Blind 25 Years Learned

Oakwood, Ohio.—A queer paradox of life has been revealed in this little town. Octa Terry, 25, was born blind, but she had so felt her way about that her fingers were her "eyes" and her imagination pictured the world, from which she was veiled as a beautiful and entrancing place.

And now, that modern medical science has opened her eyes to life, Octa is terrified, and really is "blind"—blind with this thing called sight—Octa, who "saw" with fingers and ears and imagined beautiful things.

"First of all," she says, "the sight of my face startled me. I thought I was rather pretty. Now—(she pathetically declares)—I know I am not." Until she was told that trains and automobiles were trains and automobiles they were to her, strange apparitions—terrible monsters.

The face of her mother, was the first thing Octa wanted to see when physicians removed the bandages from her eyes and told her she could see.

Asked as to the thing most beautiful to her, who has not seen for twenty-five years, Octa states "dandelions—they are the most beautiful things I have ever seen."

One ray of happiness, however, has come into Octa's eyes. She will no more be a burden to her family—she feels she can now become self supporting. She already has been hemstitching 1,000 towels for a local factory.

"That means \$15 for mother," she proudly says.

No Mistake
Are you sure that I shall recover? an anxious patient once asked a physician. "I've heard that doctors sometimes give a wrong diagnosis and have treated patients for pneumonia who afterwards died of typhoid fever." You've been woefully misinformed, replied the medico, indignantly. If I treat a man for pneumonia, he dies of pneumonia.

THEATRES

Johnny Hines in "The Brown Derby" is holding the screen at Webb's theatre today. It started off with a bang like the pop of a champagne cork and goes right to your head. If congress ever votes for a referendum on intoxicating giggles, John Hines will win by a landslide. It's a First National production which Mr. Webb guarantees to be good. "His Jazz Bride" is the extraordinary attraction, adapted from "The Flapper Wife" story by Beatrice Burton with Marie Prevost, Matt Moore and other stars. Intimate revelation of the problems of a young attorney who married a girl of the modern business world and finds himself with a wilful, extravagant jazz bride on his hands.
