

# Economy And Prosperity

The great campaign Slogan of one of the big political parties for the next elections will be

"PROSPERITY"

Supposed to be the result of President Coolidge's program of

"ECONOMY"

Whether the President is responsible for "Prosperity" or not, will be a debated question by Democrats, Republicans, Progressives and Prohibitionists.

BUT ONE THING IS CERTAIN, ECONOMY produces PROSPERITY whether practiced by NATIONS, COMMUNITIES or INDIVIDUALS and at the beginning of the FALL SEASON.

We urge a program of ECONOMY and DEBT PAYING for SHELBY and CLEVELAND COUNTY.

CONDITIONS LOOK BETTER From a crop outlook, price prospect and also manufacturing prospects have improved, so we can look forward to a season of PROSPERITY TO A CERTAIN EXTENT, but remembering a hard, close, scarce-money season for many this year, we want to urge our customers to adopt a program of

"SAVING and ECONOMY."

## First National Bank

"SAFE FOR SAVINGS."

### DO YOU WANT Little Things Or Big Things

IF YOU desire something big you will find yourself working toward that end, and in a sensible and systematic manner.

YOU WILL find yourself economizing and saving money that you spent before on trifling and useless things.

YOU WILL have a bank account, which system will help you keep track of your income and outgo, and will show at all times the money you have on hand.

AS YOUR surplus grows, your hopes will be proportionately brighter.

### His Shot Kills Two

Charlotte News.

Retributive justice will score high if young Vickers, the boy who escaped from a State guard here last week and who tried to escape again Tuesday, dies of a mortal wound inflicted by his keeper when he made the latest dash for liberty. It may come about that way and eventually that he will crowd into the eternal days close on the heels not only of the man he slew in this county last November, but right behind the invalid mother also of this innocent man who was done to death.

Mrs. Ella Rogers, the mother of Ellison Rogers, victim of the greed of Vickers, died of a broken heart at her Union county home last Saturday.

The shot that ended the life of her son out yonder on the road to the river has terminated also the life of the mother of the rural side of Union.

Prostration incident to the shock of her son's murder paved the way for a breaking down of her heart and for six months she has lingered on the side of the river.

Vickers is serving seven years for the wanton slaying of Ellison Rogers, according to the law of the Commonwealth, but we shall have to leave to Him who is so scrupulous about details that he take note of the sparrow's fall to attend to Vickers for the murder of Mrs. Ella Rogers.

### Poor Grooms To Loose Nuptial Joys Ere Long

Sacramento.—Pity the poor bridegroom!

The peal of wedding bells has become as the clang of the cash register.

And now comes the movement to popularize engagement rings and wedding rings for men.

It simply can't be done, according to L. E. Ross, chief of the State bureau of vital statistics and ambassador of Dan Cupid. It's unfair to California's unorganized bridegrooms.

Informed of the proposal made by Conrad J. Brotherly, president of the National Retail Jewellers' association, that engagements rings and wedding bands be decreed for men, Ross tried it out on his rapid calculator.

Here are the results: Estimated present expenditure in California annually for engagement and wedding rings, based on number of marriages, \$8,000,000.

Probable increase if men adopted engagement rings, \$5,700,000.

Increase for wedding bands for bridegrooms, \$570,000.

Total estimated increase if ney vogue became popular, \$6,270,000 annually.

Grand ring total \$14,270,000. Even though men economized in the purchase of their own engagement rings, they could not hope to escape for less than \$100 each, affirmed the State statistician. And the average wedding ring would call for another \$10 at least.

Furthermore, said Ross, men have a false sense of modesty which would prevent them accepting rings from their brides or brides-to-be. So there's no hope of making it a reciprocity proposition. Added to the financial objections the statistician declared, is the fact that men, as a general rule, do not appreciate of jewelry for their own use.

### - AT THE MOVIES -

The Webb theatre is bringing the prime favorite Colson Moore to Shelby next Tuesday, in her latest "It Must Be Love." Colleen turns 'em away when she comes, and the Webb is looking for a reputation of the big run of last week end when Rudolph Valentino broke the house record. It is great.

Today (Friday) brings a good stirring drama to the theatre in "The Wilderness Woman" starring Aileen Pringle supported by Lowell Sherman. This is a north country picture, with the action transferred to New York. A wonderful picture with a wonderful story.

Saturday a good Western picture is to be shown and Monday "The Flying Mail." Good comedies with all the main bills, and on Saturday the famous Fables is shown.

Emil Jannings!  
E. A. Dupont!

These are the big names associated with the picture on at Princess tonight. The title is "Variety" and it is one of the big pictures of the year Emil Jannings is the German actor, who played Nero in "Quo Vadis," and made a hit that carried him to the height of fame. E. A. Dupont is the director of "Variety" and he is the man who made "The Merry Go-Round." Dupont is looked upon "in pictures" today as the leading directing genius. It is a classic of the screen.

Tom Mix Saturday and Monday brings Zane Grey's latest "Folom River"—the very highest class melodrama of the day.

### PARENTS AT FAULT JURISTS DECLARE.

20th century society is riding to a fall.

Judge A. T. Burgervin, Louisville, Ky.—A potent cause is a laxity of parental control and direction, a failure to inculcate pride of character and proper aspirations. Children should be imbued with taste for serious work. There should be a sweeping change in the training of children.

Judge Harry A. Archibald, Los Angeles.—The adults of this generation are responsible for a great deal of the present trouble. Too many grown people today are living examples of a laxity of thought and conduct which has a demoralizing effect on the young people watching them.

**Come From Broken Homes**  
Judge Marcus Kavanagh, Chicago.—Youthful offenders come from broken homes and from homes where parents have lost control over their children. The first lesson in teaching children to obey their country's laws is for the parents to teach them to obey the law of the mother and the law of the father.

Judge William V. Brothers, Chicago.—The three most important causes contributing to crime today are the automobile, the movie and liquor. \* \* \* The greatest preventive of crime is the wholesome atmosphere of a home where God is revered, parents command and receive love and respect, and the children are taught to assume their fair share of responsibility.

Judge Samuel D. Murphy, Birmingham, Ala.—We need better parents, better homes, better schools, more active churches. There are now more young people whose character is positively and actively good and more whose character is positively and actively bad than ever before.

Judge L. B. Day, Omaha.—The reason why there is so much crime among our young people today is that the home is failing to function as it was intended to. \* \* \* Lack of respect for parental authority leads to the lawless attitude of the day.

Judge Harry G. Green, Springfield, O.—Among children brought into court, I find one outstanding and almost invariable lack. They have had practically no religious and moral training. There is great laxity on the part of parents in controlling their spare time.

Judge Ethel MacLachlan, Saskatchewan.—The chief reasons are bad home training, bad heredity, bad examples of parents, failure on the part of parents, failure on the part of parents to teach children honesty, self-denial, self-control and to do without instead of wanting everything in sight.

Mr. Mark Dunlop, of Gosh, Okla., is visiting Mr. Johnny McKnight for a few days this week. They will leave for Davidson college, where both attend school, Monday or Tuesday.

Some drivers are courteous and some pilot five-ton trucks.

Blacksmith: You say you can shoe a horse. How would you proceed about it?  
Applicant: Toot my horn until he got out of the way.

The automobile increases by leaps and bounds; the pedestrian decreases in spite of leaps and bounds.

Auto Demonstrator (who had been trying for three hours to sell the car): Now, I will throw in the clutch.

Uncle Joshua: I'll take her then. I knew if I held off long enough, y'd throw in something to boot. b'gosh.
