

Economy

And

Prosperity

The great campaign Slogan of one of the big political parties for the next elections will be

"PROSPERITY"

Supposed to be the result of President Coolidge's program of

"ECONOMY"

Whether the President is responsible for "Prosperity" or not, will be a debated question by Democrats, Republicans, Progressives and Prohibitionists.

BUT ONE THING IS CERTAIN, ECONOMY produces PROSPERITY whether practiced by NATIONS, COMMUNITIES or INDIVIDUALS and at the beginning of the

FALL SEASON.

We urge a program of ECONOMY and DEBT PAYING for SHELBY and CLEVELAND COUNTY.

CONDITIONS LOOK BETTER From a crop outlook, price prospect and also manufacturing prospects have improved, so we can look forward to a season of PROSPERITY TO A CERTAIN EXTENT, but remembering a hard, close, scarce-money season for many this year, we want to urge our customers to adopt a program of

"SAVING and ECONOMY."

First National Bank

"SAFE FOR SAVINGS."

DO YOU WANT Little Things Or Big Things

IF YOU desire something big you will find yourself working toward that end, and in a sensible and systematic manner.

YOU WILL find yourself economizing and saving money that you spent before on trifling and useless things.

YOU WILL have a bank account, which system will help you keep track of your income and outgo, and will show at all times the money you have on hand.

AS YOUR surplus grows, your hopes will be proportionately brighter.

Motor Aphorisms

A honk in time prevents a fine. Spare the pump and spoil the tire. There's no use crying over spilt gasoline. A green motorist makes a fat repair shop. If wishes were cars, beggars might ride. It's a lucky car that has no overturning. Good roads slogan: Money makes the mire go. A slip of the tongue often follows a slip of the tire. A fool and his car are soon in need of repairs. One half the world doesn't know how the other half flies.

When a legislator meets a legislator, but that brings on more talk.

Lincoln Seeking More Auto Space

The increasing number of automobiles in this county is making the problem of parking space grow daily. Saturdays of each week the business men at Lincolnton leave their cars at home to make room for the visitors in town. This helps some, but there is still need for more parking space close in. The day will likely come when it will be necessary to widen the street around court square, by slicing off about 20 feet of the square, paving same and making it possible to park cars around court square. This will be necessary when every home has a car, which is not a far distance away.

Electric Current For Hatchery

Lincoln County News. Work on the new Lincoln hatchery and poultry association buildings continues apace. Last week a 23 hundred volt electric line was erected leading from the city to the hatchery by Electrician Lester Abernethy, to furnish necessary current for the buildings, which are being wired as fast completed. A line has also been put in from the hatchery to the pump to furnish juice to operate a pump which will supply water at the new poultry plant. Work on the brick house which will house the 12,000 egg incubator will begin at once, and probably within 60 days the poultry plant will be ready for operation.
