**BUDGET
SYSTEM**

By means of a budget system all expenses are determined upon a fixed income.

A great many individuals are adopting the budget plan—it is nothing more or less than a systematic control of their expenses, which is a much better means than drifting along in a "HIT or MISS" fashion.

A simple method is to set aside 10% or more of what you make and figure to live on the balance, and often then there may be some left to add to your 10% fund.

Try the budget system for awhile; it may be beneficial.

LITTLE STARS PERSONALS

Home folks you know on the go.

Cotton (Shelby spots) 11 1-4c
Cotton Seed (per bu.) 30c

—Completes Home—Paris Yelton has finished his new home on Lee street and Mr. and Mrs. R. G. Mauney will occupy the same for the present.

—Polkville Woman's Club—The Woman's club of Polkville will meet Friday afternoon at 3 o'clock at the home of Mrs. Fay Jenkins instead of Wednesday.

—With Power Co.—M. A. T. Tenbury who held a position here with the telephone company during summer, has moved his family to Hickory where he is working for the Southern Power Co.

—Te Mooresboro—Mr. and Mrs. E. E. Holcombe who have been living at their home (the Walter Barron house) on S. DeKalb street have moved to Mooresboro to live. Mr. Holcombe is proprietor of the Chero Cola Bottling plant.

—Mr. onic Meeting—A called communication of Cleveland lodge No. 202 A. F. and A. M. will be held Friday night at 7:30 o'clock for work in the Master Mason degree. All members are urged to attend and visiting brethren will be welcomed.

—Banks Close—Thursday November 11 being Armistice day and a legal holiday, the several banks of Shelby will be closed. Patrons should bear this in mind and attend to all banking business before that time.

—Returns to Shelby—W. H. Whitlock, who formerly lived in Shelby but has been in Rock Hill, S. C., for two years, has returned to Shelby to make his permanent home. He has opened an auto paint and trim shop, repairing wrecked cars in a store room near the Shelby corn mill. Mr. Whitlock will bring his family to Shelby the last of this month.

Mechanical wings for human beings have been invented but will not be needed by the high fliers.

The reason some men leave home is because they can't pay the rent. Now and then you'll find a baby who thinks its mother is just a friend of its nurse.

The stone-age man had his wife at his feet. The modern man has her in his pockets.

EGG LAYING CONTEST
NOW IN FULL SWING

Chipley, Fla.—Florida's first national egg laying contest is under way here.

Sent on their way with formal exercises which occupied nearly the entire day, 50 hens from seven states and 18 Florida counties were beginning their vigil to last for a year.

The states represented, according to an announcement by E. F. Stanton, supervisor, and the number of entrants each has, follow: Alabama, 5; Indiana, 3; Michigan, 4; New Jersey, 1; Pennsylvania, 1; Tennessee, 1; Washington, 1; and Florida, 36.

The contest is under the supervision of the college of agriculture, University of Florida.

S. S. Children To Send Doll Abroad

Central Children to Send Doll to Japan For Festival Which Is Held Annually.

The primary department of the Central Methodist Sunday school is planning to send a "friendship doll" to Japan. They are anxious for others to do the same. The plan is this:

The people in Japan have a beautiful family custom called the "hina matusra" (festival of dolls). It comes each year on the third day of the third month. All the dolls of all the children, their mother's, grand-mothers and those of preceding generations are brought out of the "ancestral room" for the hina matusra, and what a wonderfully happy day.

It is being planned by a committee on World Friendship Among Children to send 100,000 "friendship dolls" to Japan to serve as messengers of goodwill from America's children to Japan's children. There are about 4,500,000 girls in Japan between the ages of 6 and 14.

The children of the primary department of Central Methodist Sunday school are enthused over the idea. We are planning our "farewell party" for our little messenger for the early part of December. We do not want to be selfish in this beautiful and wonderful plan. We think it would be a fine thing for Shelby to send at least one dozen dolls. So we are asking the different Sunday schools of Shelby, the Missionary societies of all the churches, the Men's Bible classes, all the day schools, the Woman's club, the Kiwanis club, and any others who will, to join us in sending a messenger of good will.

I have taken the matter up with the committee in charge in New York city and will be glad to furnish any information as to kind of dolls, time and place to be sent, upon request.

If interested, please let me know not later than Friday, November 12.

Yours for friendship,
MRS. F. R. SANDERS,
Supt. Primary department of Central Methodist S. S.

Miss Evelyn Sheider spent the week-end at Clemson College, S. C.

Mrs. Charles Wall, nee Eugenia Holland, of Salisbury, is visiting Mr. and Mrs. L. P. Holland.

Mr. Frank Wilson spent the week end with Mr. and Mrs. Yates Greene.

would not pollute the lake. As a river is probably has caused more grief and cussing than any other. Chicagoans every once in a while wonder what should be done with it.

Some would like to bridge it over with a wide boulevard; others want to fill it up, while another group, railing at the government which maintains that it is navigable and must be kept free for traffic, want to ban it as a carrier and put in fixed bridges.

After moving west a mile, the river divides, one branch meandering north and the other south, so that Chicago's loop virtually is an island. Proponents of the boulevard idea hold that the covering of the stream would relieve traffic and give the downtown area a larger breathing space.

All bridges across the river, and there are scores of them, are movable because every once in a while a flat boat pulls through carrying a lone freight car or a string of some kind moves inward, halting street traffic as one bridge after another is lifted.

Those who wish to see fixed bridges installed are petitioning the government to rule that the stream no longer is navigable. But the war department still holds that the river must be kept open to ship traffic.

JEWELERS and OPTOMETRISTS.

DON'T BLAME THE CLOTHIER

Just as good suits as we ever bought are sold today in all up-to-date clothing stores and tailoring establishments. There never was over three to three and one-half pounds of wool used in cloth enough for a suit, and its being used today the same as always.

How long do you suppose a good suit of underwear would last if it was worn a year without washing? Have your suit cleaned once in awhile and it will last twice as long.
