BEFUKE YUU DECIDE

The Pilot was the first life insurance company in the country to offer free annual health examination to its policyholders. Every month scores of examinations are being made, resulting in improved health and not infrequently actually saving lives.

Buying life insurance is really an important matter, and before deciding on a policy or a company be sure that you are taking the right policy with the company that is in the best position to do most for you.

For years the Pilot Life Insurance Company has been able to furnish such life insurance service to the people of North Carolina as would naturally make them prefer the Pilot to any other company

Before you decide on a company we suggest that you let one of our men show you what this pioneer Carolina Insurance organization has to offer
