**Planning Big Steam
Plant Near Dravo**

Caffney Ledger.
The Broad River Power company has a party of engineers at work surveying the Gladden property on Broad river near Dravo as a possible site for a large steam plant. The concern is planning to build within the next two or three years. An option secured upon payment of \$10 and giving the company the right to purchase a 320-acre tract, less 70 acres, by the payment of \$5,000 additional not later than February 26, 1927, was filed in the office of clerk of court T. M. Caldwell at the court house here this week.
J. H. Axwell, general manager of the South Carolina Gas and Electric company, of Spartanburg, a connection of the Broad River Power company, which is a branch of the W. S. Barstow interests, yesterday told The Ledger by telephone that the company intends to build another steam plant, possibly in 1927, 1928, or 1929, but that as yet no definite plans has been adopted.

Improving With Age

Salisbury Evening Post
If you are 5-12 years old, you have lived the span of life allotted you by the insurance company statisticians.
It may be some consolation to know 47 per cent of people, however, live beyond 60. Thirty per cent live beyond 70. Only one in 5,000 lives beyond 100, and two-thirds of the centenarians are women. The one big job of medical science today is to lengthen the lifetime, prolong "the age of expectation." Some doctors work directly for this end, and all are working indirectly.
It might be pertinent to ask if the economic and social world is keeping pace with the medical world.
For what it profit a man to live his three-score years and ten, if he must struggle miserably just that many years more?
Fortunately, the answer is that things are improving, we think, in the medical one.
Unlighted Vehicles

Unlighted Vehicles

Greenville Reflector.
In a collision near here last night between an automobile and an unlighted animal-drawn vehicle, several persons received injuries. This is a common occurrence on the highways of the state and should have the attention of the lawmakers when they gather in Raleigh next month. The list of injured throughout the state from such accidents is a forceful argument for laws requiring the lighting of all vehicles and it is to be hoped that despite its former failures, the vehicle light measure will be given favorable consideration when it is presented to the next General Assembly.
