— OLD FASHIONED DANCES —
REPLACE BLACK BOTTOM ON UNIVERSITY CAMPUS

(By International News Service) Berkeley, Cal.—Old-fashioned clog dancing may replace the black bottom on the University of California campus.

A class in clogging has been started at the university and more than a hundred students have so far enrolled.

Clogging is an aid to beauty, according to Miss Louise Cobb, the instructor in the dance.

"It is one of the few exercises which require decided ability to relax at the same time one is in motion," she explained. "It gives one poise, graceful carriage, and a graceful symmetrical figure."

—Bought "APCDE"—The Star was in error last week in saying Stamey company bought a number of years ago the store of Miss Bessie DePriest. Stameys bought the A. B. C. DePriest stock of goods at Polkville where Mr. DePriest was in business 23 years before moving to Shelby. Miss Bessie DePriest continues to operate a store at New House.

—Will Not Run—John Schenck junior who has served one term as alderman sends to The Star a notice, announcing that he will not be a candidate to succeed himself. He writes "Regretting that it is no longer possible to give the time and thought required as alderman to both the town and the company by which I am employed, I will not stand for re-election as alderman in Ward No. 3."

—At Lake—A number of Shelby people were seen amongst the big crowd that took in the late winter beauties of Chimney Rock yesterday. The visitors included Mr. and Mrs. Oscar Suttle, E. E. Scott and family, J. J. Lattimore, Mrs. Lattimore and daughter, Mr. Kemper Kendall. It was said one of the largest winter crowds ever seen at "The Rock" was present on the sunny Sunday.

—To Open—J. L. Parker has moved into his new store building at Seaboard avenue and North Washington street, and is advertising today a formal opening of the fine establishment, scheduled to take place Wednesday afternoon and evening. It is a grocery store and filling station, newly built, and declared to be one of the finest establishments of its kind in North Carolina. The corner looks like a section of Miami set down here in Shelby, the white plaster building, with its tile roof making a unique landmark in this grayer setting. Mr. Parker removed to his new location from Hudson street, where he conducted a grocery store for four years, a nd very successful, so much so that he has merited his new status as a merchant. The new store has 1,500 feet of floor space, with a filling station attached. The opening will be featured by a guessing contest, and souvenirs for the men and women patrons.

Our extra slice of pie for this week is awarded the boob who stood in our open doorway last week and talked to us during a cold snap, while we sneezed loud and often.

The quickest way to get your work done is to start at it today.

It cost Doheny more than \$10,000,000 to find out that fraud and corruption doesn't pay.

- AT THE MOVIES -

"The Nervous Wreck" with Harrison Ford, a hilarious comedy, is the feature at the Princess today. It is an excellent show, full of real humor. Harrison Ford plays his best in such a part. In "The Nervous Wreck" you will see yourself, if you are in the habit of cantankerous moods.

And an extra fine picture is due tomorrow, Tuesday—with W. C. Fields starring. Fields is the comedian who put over "Sally of the Sawdust" and "So's Your Old Man." The title of tomorrow's picture is "The Potters." It's a Paramount and a good one.

Coming Wednesday "Going the Limit."

Thursday brings one of the six biggest pictures of the year—Pola Negri in "Hotel Imperial" boosted not only as the best picture Pola ever made, but a genuine screen classic.

Dorothy Compton of a school basketball team in Warwick, R. I., shot 49 field goals in a recent match game, which is believed to be a world's record for individual scoring in one game.

THE BEST ASSET

There can be no better asset for any man to have than money in bank. Here are some of the reasons.

FIRST. Safety—money in bank is secure. It does not fluctuate, and it is not subject to the rise and fall of markets or other conditions.

SECOND. It can be made an income-producing asset, not idle, but working constantly for you.

It is a reflection upon the thrift and the good sense of our people to suggest that they do not need a bank account. What they do need is to become better acquainted with this good bank and its modern banking methods.

Remember that this is a strong bank with sufficient resources—that is, available money—with which to meet all demands for a helpful and satisfactory banking service.
