

Hollis Ends Good Basketball Season

(Special to The Star.)
Hollis—Tuesday afternoon Mar. 17, the Hollis high school "Wonders" smashed out the Casar "Mountain Devils" in the final basketball game of the season. The game was played hard and fast and was won by the score of 23 to 15. The Hollis "Wonders" jumped into the lead soon after the ball was tossed by the referee and was never headed. Despite the "Mountain Devils' desperate effort to stave off defeat, the "Wonders" proved too strong for them; for excelling them in jumping and shooting. The "Devils" seldom ever hit the basket while the "Wonders" sent them home from every angle. The game never once swung from the winning side until the final drop of the curtain Brackett and Stroud were the principal stars from Casar. The line-up was as follows:

Hollis	Pos.	Casar
Brackett (8)	F	Walker (6)
Melton	F	Queen (2)
Stroud (6)	C	Turner (3)
Stroud (9)	G	Wortman (4)
Tarlan	G	Walker

Professor Falls, referee.

This closes the most successful basketball season for us since the birth of our high school. To our clever coach W. Foster Powell, much of our success must be attributed. Under his able supervision, not only the boys, but the girls also have seen anticipation of fame in athletics realized. Both teams last season did fine work and received much praise; but this term we have no apologies to offer in their behalf. Coach Powell not only has administered splendid training in the physical features of the sport but has forcibly stressed the arts of co-operation, loyalty and honesty, which taken together constitute the game and builds true characters.

Of the thirteen contests entered by our boys ten victories have graced their honors. In most of these contests they were meeting on the field of battle some of the stronger team of Rutherford and Cleveland counties.

Our girls have entered five contests, and won four victories; thus showing themselves worthy fellow-helpers of their successful brothers.

The Hollis school is justly proud of her achievement during the present session, and by no means the least of these is the splendid records made by her crack basketball team.

"The Hoey Literary Society."

(By L. O. E. Hartman of Belwood School.)
When the Hoey Literary society was first organized, All we members felt so trembly and so agonized.

If, when we looked on the program, made out, We saw our names for a number standing out.

Away we ran to the program committee, I can never debate; I'm not that grumpy.

To get up before all these boys and girls, My knees will tremble and my head will whirl.

But they were firm and never gave in, An effort we must make, or it seemed like a sin, When we faced the crowd our knees played tunes, And surely in our throats were two or three prunes.

But now our tunes and trembles are wearing away, And we love our Hoey Literary society better each day, Tho' we had to struggle hard at the start, Now we are always anxious to take our part.

The Hoey's look forward to the middle of the week, Getting tired of our regular work a change we seek Miss Lackey hops up with lots of pep, And says let's snap this thing up and give it a rep.

Enthusiasm she brings to each part, And every one happy deep down in his heart, That he has helped make this society in such a short while And suddenly there comes upon every face a big, broad smile.

But when our work is ended for this year, We'll think of our society and shed a tear, If in days to come, we become great and mighty, We will owe it all to the Hoey Literary society.

The Federal Reserve Board reports that 1926 was unusually stable. Farmers say that the noise you hear is a horse laugh. Aviation may in its infancy but the Curtis company made \$413,316 in 1926. This is our idea of a healthy infant industry. The annual contest between the suburban gardener and the poultry fancier will begin soon. Betting odds are 5 to 1 on the hens. So far as we know no bank has yet started to use a bookkeeping system which will tally with the customer's check stub balance.

TERRIBLE PAIN

Alabama Lady Tells How She Obtained Relief by Taking Cardui. Feels Fine and Enjoys Life Now, She Says.

Taladega, Ala.—Mrs. Mary Hardy, 406 Henderson Avenue, this city, says that seven years ago she "got down sick" and was unable to attend to her household.

"I have never been so weak before or since," she says. "I had a terrible pain in my sides—so sore in my side and the lower part of my body. Across my back ached, and I was so nervous I couldn't stand up. I had just about given up when some one who came to see me began talking about Cardui. This caused me to get it. I took about two bottles before I saw much improvement. After this, though, I picked up right away. I slept better at night. I was hungry, enjoyed my food, which I hadn't done for some time. The pain and soreness gradually left my side. I regained my strength. I took about six bottles and left off for awhile, then took two or three more. I feel just fine, enjoy life and am well now, too. Cardui is purely vegetable, and contains no harmful drugs. It has helped thousands of suffering women and should help you, too. NC-168

Says Cotton Seed Have High Value
Mr. J. Frank Jenkins, manager of the Shelby plant of the Southern Cotton Oil, writes the following informing letter to The Star concerning the value of cotton seed per acre of land.

I have read with interest the article in The Star of the 16th, "Farm Crops of This County in Value in 1926."

Under per acre value of these crops, I notice cotton estimated yield lint per acre, 290 pounds, value 11.7 or \$33.93 per acre.

This does not show the seed value which seems to me should be figured in the value of the cotton crop per acre or total value for the county. Since there are two times as much seed as lint per acre, this would make 580 pounds of seed per acre yield or 19 1/2 bushels per acre average price we paid for seed whole season 42 cents per bushel would make an additional of \$8.12 per acre added to the 33.96 or total value of cotton crop per acre \$42.08.

Since there were 65,645 acres in cotton and 580 pounds of seed per acre or a total of 19,030 tons valued at \$28.00 per ton or a total value for the county of \$533,036.00, which added to the lint value for county, would make a total for crops of \$3,759,236 or over half million dollars than your estimate shows for all crops in the county.

Now the value of the cotton crop only was figured at \$2,227,335 and add the seed \$533,036, makes a total for the cotton crop of \$2,760,371. You will note also that the cotton seed values run nearly as high as the corn crop since the total value

of the corn was only \$597,622, and the seed crop is \$533,936 makes the crop crop only \$74,886 more than the seed crop.

Now pound for pound, you will find that seed are selling more per pound than since there are 56 cents per bushel, or pound value of \$1.18 cents per pound, whereas cotton seed weighs 30 pounds to the bushel and value 42 cents per bushel or per pound value of \$1.40.

Bushel per acre corn yield was 21 bushels, whereas seed yields 19 1/2 bushels per acre, or 1 2/3 more per acre than cotton seed. Farmers can raise nearly as much or more cotton seed per acre than corn, and some years the seed will bring more than corn. If farmers would learn the value of their cotton seed meal and hulls for mules and horses and feed it in the right proportion, they would soon find their cotton seed crop worth more than their corn crop, acre for acre.

PARIS TAXPAYERS PROMPT: PENALTIES NOT NECESSARY.
(By International News Service.) Paris.—French taxpayers have never been so prompt before, according to a statement from Premier Poincare who says that has not yet been necessary to use coercive measures. Everybody came forth promptly with their money during October and November.

The law of March 22, 1924 authorizes the Minister of Finance to penalize late payers by an increase of ten per cent. The date of this increase is left to the discretion of the Minister and Poincare hopes that this year there will be no necessity of applying this penalty.

College To Ban More Beer Song

By International News Service Washington, Pa. "I love my dear old college and I love my lager beer."

They used to sing it as a part of the most popular football song at Washington and Jefferson College, but the Eighteenth Amendment has changed things. A campaign is under way on W. and J. campus outlaw the offending sentence in the college song.

Mrs. S. S. Baker, wife of the president, says it's undignified and hints at violation of the prohibition laws. The "Red and Black," college student publication takes up the cudgels in Mrs. Baker's support, claiming editorially that "there is no lager beer, and it's as silly to sing of it as it is to try to get it."

The campaign for an amended varsity song has gone even further than objecting to the mention of beer, too.

Overdoing? Hurry, Worry and Overwork Bring Heavy Strain.

MODERN life throws a heavy burden on our bodily machinery. The eliminative organs, especially the kidneys, are apt to become sluggish. Retention of excess uric acid and other poisonous waste often gives rise to a dull, lagging feeling and, sometimes, to aching back-aches and headaches. That the kidneys are not functioning perfectly is often shown by burning or scanty passage of secretions. More and more people are learning to assist their kidneys by the occasional use of Doan's Pills—a stimulant diuretic. Ask your neighbor!
