PARENTS—

Urge your children to save. Come in and open a Savings Account for them. Start them off with a dollar or more, than teach them to save the pennies and dimes, help them along—get them started early in life. Each child will be given a Savings Pass Book in their own name. Every three months interest will be added to their account—It grows fast and before you know it they have saved a nice little sum.

A new interest period starts today in our Savings Department, deposits made up through April 5th will draw interest from April first.

A NEW CHURCH YEAR FOR PRESBYTERIANS

Sunday begins a new church year at the local Presbyterian church. For that reason a large attendance is expected at the Sunday services. Every organization in the church has perfected plans for the coming year which should enlist the hearty support of every loyal member of the congregation. The day will begin in the right way, with prayer in the workers council of the Sunday school at 9:30 a. m. Every officer and teacher is asked to be present for this service. Sunday school will meet promptly at 9:45 a. m. On account of repairs being done in the church auditorium the communion service announced for Sunday has been postponed one week. The morning service will be held in the auditorium of the Sunday school building. The pastor, Rev. H. N. McDiarmid, will have for his subject at 11 a. m., "Too Much Luggage," and the choir will sing the anthem, "O Lord, How Manifold Are Thy Works."

Junior and senior Christian Endeavors will meet at 7 p. m. There will be no evening service. The congregation is asked to attend the evangelistic meeting at Central Methodist church. At 2:30 p. m. the pastor will conduct a service at Earl.

Thirty One Added To Church As Result of Revival—Personal Mention

(Special to The Star.) A revival has been held at the Second Baptist church. The revival was conducted by Rev. Charles Matheny. We all enjoyed the helpful message that Mr. Matheny brought to us. At the conclusion of the revival which was Sunday night, the ordinance of Baptism was given. There were thirty-one people that became a member during the revival.

April the 3rd a revival will begin at the LaFayette Methodist church, being conducted by the pastor, Mr. Johnson. All people are invited to the meetings. We urge those who are unsaved and those who are not Christians to be present.

Mr. and Mrs. H. H. McGinnis and children spent the week-end with relatives at Dover Mill.

Mr. and Mrs. Clotus Hamrick spent Sunday in Carolina.

Mr. Gordon Hamrick spent the week-end with Mr. Clement Weaver.

Mrs. Sigman of Fallston is spending awhile with her daughter, Mrs. A. D. Gilmore.

Mr. Osborne Hughes of Charlotte spent Sunday with Mr. and Mrs. Carl Hughes.

Miss Mildred Hawkins spent the week-end at Dover Mill.

Mr. and Mrs. W. R. Queen and Fred White motored to Lincoln last week.

Miss Ruth Queen is spending awhile with her sister in Forest City.

Miss Violet Weaver spent the week-end at Eastside with relatives.

TAR HEELS ACTIVE IN CHINESE ROWS

North Carolina just about claims the Chinese situation for its own. North Carolinians figure prominently in the cable dispatches.

John Kerr Davis, U. S. Consul at Nanking, is the son of the late Dr. John Wright Davis, of Salisbury. He was born in China, however, where his father was a Presbyterian missionary for many years. Mrs. Davis, wife of the consul, whose story of escape of her family from Socony Hill, was recently told in Associated Press dispatch, formerly was Miss Mary Murphy, also of Salisbury.

Commander Julian Timberlake, of Raleigh, has left for the United States Naval Academy at Annapolis after a furlough here. He returned from China in January after being stationed there a long time. He drew up the plans in 1924 for the evacuation of Nanking.

Lieut. Commander George B. Ashe, also of Raleigh, commands the U. S. Destroyer William B. Preston which laid on a barrage that kept back the invading Cantonese while the American refugees evacuated Socony Hill.

Commander D. C. Godwin, chief of staff for Admiral Williams, commanding the Asiatic fleet off China, is a native of Williamson, N. C. He is the son of Mr. and Mrs. B. F. Godwin of Martin county. Commander Godwin's wife and daughter are with him.

In the British house of commons a London dispatch says Sir Austin Chamberlain, the British foreign secretary, paid tribute to Henry O. Warren, quartermaster third class of Olin, N. C., attached to the destroyer William B. Preston. Warren signalled the American and British warships to start firing on the Chinese at Nanking.

A Williamson dispatch reports that that city probably has more missionaries in China than any

other American city while Rocky Mount reports presence in China of a large number of local tobacco men.

Highway No. 20 West Will Be Open For Travel

Work Will Continue Night And Day. And 15 Miles Detour Will Be Kept in Condition

(Special to The Star.)

Asheville, March 30.—Conflicting rumors regarding the condition of state highway 20 between Lake Lure and Rutherfordton, enroute to Charlotte were definitely set at rest today by the receipt here of direct information from John E. Noel, state highway engineer, Marion, who has just completed an inspection trip of the affected area.

Whereas, rumors in various state papers have intimated that paving operations between Lake Lure and Rutherfordton, scheduled to start April 4, would necessitate the routing of all through traffic via N. C. 10, Mr. Noel asserted that there has been completed a splendid detour over N. C. 19, connecting Lake Lure by way of Gilkey with Rutherfordton, where traffic is once more routed over N. C. 20 to Charlotte.

A force of men with 25 trucks and several drags has been engaged in putting topsoil over this detour; underbrush along the right of way has been cleared, and the customary highway signs posted.

While the road is not as wide as N. C. 20, Mr. Noel asserts, the surface conditions are now such that no inconvenience to traffic will result. A maintenance crew will be kept upon this 15 mile stretch while paving operations are being carried out by Ziesler Brothers under N. C. 20.

This work commences April 4, with two 12-hour crews constantly upon the job. Lighting arrangements have been completed, whereby night shifts are possible, thus expediting the operation which it is hoped to complete by June. Even if this is not possible, Mr. Noel points out, the detour will be in such condition that traffic will not suffer while awaiting the opening of N. C. 20.

Officials of the Carolina Motor club here, informed of this step, announce their intention of sending an inspection party into this area to determine the condition of the detour when it opens April 4.

German Women Urge For Divorce To Be Less Severe

(By International News Service) Berlin.—Prominent intellectual women in Germany are in favor of a reform of the existing divorce law. Divorce should be made easier, they say, and a marriage should be annulled as soon as both parties cannot get along with each other, regardless of whether one of them is guilty of an offense, that is infidelity, or not.

All these women advocate such a reform in the interest of the children. They all agree that children growing up in a home where the parents disagree suffer terribly and much more if the parents remain together than if they were divorced.

"I feel sorry for children growing up in such a poisoned atmosphere," says Marie von Bunsen, famous scientist. Such a marriage should be divorced in the interest of the children.

Frenzska Mann, famous novelist, favors a "trial divorce" for a period of two years, after which the couple might live again together again, if they want to.

Frau Hedwig Heyl, president of the German Hausfrauen Verein, believes that people marry too young, and for physical reasons

mostly. "I feel a woman is mature for marriage at seventy," she added smilingly when interviewed.

BRITISH MANUFACTURERS FRIENDLY WITH RUSSIA

(By International News Service) Manchester, Eng.—Relations between manufacturers of textile machinery in Lancashire and Russia are of the cordial.

Eighteen months ago Russia placed orders for fifteen million dollars of machinery in Lancashire. These contracts will all have been completed by next spring and the

Now, according to S. J. Emdine, director of the All Russian Textile Syndicate, Russia is to place further textile machinery orders in Manchester to the extent of \$72,500,000 provided credits extending over two years are given.

TO THE PEOPLE OF CLEVELAND AND RUTHERFORD COUNTIES:

I desire to inform you that I have disposed of my Fire Insurance business to MESSRS. FRANK L. and GEO. A. HOYLE, and it affords me unqualified pleasure to introduce these gentlemen to you as my successors and hope you will continue to give them the business you gave me.

The companies I transferred to them are among THE BEST IN THE BUSINESS, and there is no man in the State better qualified for the business than Frank L. "Two years ago I bought what was considered a worn-out farm. Knowing my success as a farmer depended entirely on bringing the land back to its original state of fertility, I set out to find a fertilizer that would do it.
"The first year I tried a well-known make and was disappointed. The second year I tried only 200 pounds of 'AA Quality' Fertilizers and in spite of an extremely dry season and pests, I am gathering around one bale per acre.
"Old, experienced farmer-neighbors say this farm has never produced such a crop even in favorable seasons. I am convinced that the secret of successful farming lies in the selection and application of good fertilizers, and I have decided 'AA Quality' Fertilizers contain this secret."
—J. M. Williams

Bigger, earlier yields—that's how to get real cotton profits

FASTER-GROWING plants; quicker maturing crops; finer quality cotton and increased yields per acre. These are the things that mean bigger cotton profits—and the surest way to get results is to use the right fertilizers.

Tens of thousands of successful growers have found that no other fertilizers produce results like "AA Quality" Fertilizers for Cotton. "AA Quality" Fertilizers are made just for cotton, of exactly the right proportions of the best food elements to give cotton plants a good stand, to make them grow fast and to produce the largest yields of fine-quality cotton.
