EXPECT PRINCE OF WALES IN BELFAST THIS YEAR

(By International News Service.) Belfast.—The Prince of Wales has been invited and is believed to have accepted the invitation of the Ulster Government to visit Belfast this summer.

The Prince has never visited Ulster, and his visit is being eagerly awaited.

Asbury Will Plan Golf Club House

Louis Asbury, Charlotte architect, is drawing the plans and outlining the specifications for the new golf club house at Cleveland Springs, it is announced by officials of the golf organization.

As soon as the specifications are received a contract will be let and construction will begin, it is said.

GRADUATES MOSTLY TO ATTEND COLLEGE

Charlotte.—Of the 204 pupils graduated from the rural high schools in Mecklenburg county today, 150 plan to enter college.

Growth of the high school system is shown by the fact that 11 years ago, when the present graduation classes were in the first grade, the graduates numbered only 47.

Changes Pension Law Made Public

The last Legislature made certain changes in the pension laws, which become effective later in this year. A Confederate veteran who is totally blind or who has been paralyzed, and is totally disabled as a result, will hereafter draw \$420 per year, payable monthly through the office of the clerk of Superior court, instead of \$300 per year as has been the case.

All other Confederate veterans now on the pension roll, or who are eligible for pension under the general pension law, will draw \$1 per day, payable semi-annually. The first payment will be made in December of this year and the second in June, 1928.

The marriage date was also changed. A widow in order to be eligible for pension must have been married prior to January 1, 1880, but widows now on the pension roll by reason of some previous statutes will not be taken off.

Class A widows who are blind in both eyes or totally helpless and confined to the house will receive \$300 per year, and all other widows the sum of \$100. Except as mentioned the general pension law has not been changed, the property qualification continuing to remain in the law.

ASK U. S. TO RENEW SHIP MAIL CONTRACTS

(By International News Service.) Washington.—Renewal of existing mail contracts with six private American steamship lines engaged in foreign trade has been recommended to the Postmaster General by the United States Shipping board.

Three of the contracts expire June 30, 1927 and three on June 30, 1928. It is recommended, however, that all be terminated this year and new contracts be made for one year. This is to comply with action of Congress in making appropriations only for one year at a time.

The contracts expiring this year are those of the Munsen line to the East Coast of South America, the Export Steamship corporation operating to the Mediterranean and Black seas, and the Oceanic Steamship company engaged in the Australian trade.

The 1928 contracts are with the American South African line, the Dollar line to the Orient and the Grace Steamship company to the West coast of South America.

WHITE COLLAR "BANDITS" HARD HIT BY NEW LAW IN BRITISH PARLIAMENT

(By International News Service.) London.—"White collar bandits" and "dynamiters," or "share-pushers" as they are known in England, will not have a good time in Britain when the Government passes its new Act of Parliament to frustrate their activities.

One of the chief clauses of the Act is the prohibition of house to house offers of shares for subscription. It is also made unlawful to invite, endeavor, or induce any member of the public to subscribe for or purchase shares by oral solicitation. In addition, no written offers of stock can be made by share-hawkers and canvassers unless vital information is provided.

The act is drawn so widely that fraud of this nature will be very difficult in the future. The penalties also are very heavy. For a first offense a fine of \$1,000 is provided and for a subsequent offense a fine of \$2,500 and imprisonment for 12 months. The new measure is the direct result of a long continued and successful newspaper agitation.

NEWTON HIGHWAY MATTER UP AGAIN

Raleigh.—The perennial row between the town of Newton and the state highway commission over the location of route 10 in Catawba county will reach the supreme court for the second time next week with the appeals from the 15th, and 16th judicial districts.

The town of Newton is the appellant this time, and it is asking the high court to overrule Superior Court Judge W. F. Harding, who dissolved a temporary restraining order to prevent the highway commission from following a route between Statesville and New designed by its engineers.

The supreme court decision in the original "Newton case" last spring was a victory for the Catawba county capital and retained the road builders from following a route that would have sent highway No. 10 around the northern outskirts of the town rather than by its courthouse door.

Following that decision, the highway commission surveyed a new route which, while reaching

the courthouse at Newton, proposed to follow a course some distance north of the existing highway in passing between that town and Statesville.

ULSTER LINEN FIRM HAD NO STRIKE IN 100 YEARS

(By International News Service.) Belfast.—A world record is claimed by the Ulster linen firm of the Ballymena Manufacturing company, of Belfast and New York now celebrating its hundredth anniversary.

The firm avers that during the whole of its existence not one hour has been lost through a strike or any other dispute with its workers.

Contrary to the usual rule, the more talking you do the less it counts.

Intoxicated man was strangled to death by his stiff collar in New York and prohibition will have to take responsibility for that, too, no doubt.
