GREAT PLANS FOR SUNDAY SERVICES of the Holy Spirit is the law for the child of God.

3.—In verse nine it gives us assurance of the indwelling spirit to comfort, guide and protect us.

4.—In verse eleven we are given assurance of the resurrection of our bodies.

5.—In verse fourteen we are guaranteed the leadership of the Holy Spirit.

6.—In verse seventeen we are told of our divine sonship and heirship with Christ.

7.—In verse twenty-six we are assured of the intercession of the Holy Spirit in us, inspiring our progress and our holy desires and purposes.

8.—In verse twenty-eight we are told that all things work together for the good of them that love God—a divine conspiracy of all things for our good.

9.—In verse 29 and 30 we are told of God's five-fold work for us foreknowledge, predestination, calling, justification and glorification. All these encourage the spirit of security and victory.

10.—In verse 34 we are assured of Christ's blessed and continued intercession for us at God's right hand. Paul then tells what will not separate us from Christ a long list of troubles and perils and concludes by saying "in all these things we are more than conquerors through Christ who loves us."

HAIR OF MAN SERVES TO WARM AND PROTECT HIM Hair—woman's glory and man's despair—serves man as a preserver of heat and a protective covering and animals as an organ of touch, according to present belief, says Drs. F. W. Cregor and F. M. Gastineau in the July Hygeia.

The average adult has 120,000 on the head, blonds having more than brunets because of the finer texture of blond hair. Chemically, dark hair differs from blond in having more carbon and less oxygen and sulphur. The white hair of old age is rich in phosphate of lime. The degree of blondness depends on the color of the hair and eyes and pigmentation of the skin.

The woolly appearance of the hair of the negro is due to the fact that the hair follicle is curved and the hair itself is flat. Asiatic peoples have straight hair, round in appearance and arising from straight hair follicles.

The amount of hair on body and face is influenced by race, heredity, activity of such glands as the thymus and thyroid and by unknown factors. The activity of the oil glands is responsible for the shine and luster of the hair.

Speed Was Cause Of Wreck, Said Charlotte.—Excessive speed probably caused the wreck of Southern railway freight train number 68 near Gilkey last Saturday according to tentative conclusions reached by railway officials, it was announced here. Five trainmen were killed or so badly injured they died within a few hours.

W. M. Cowhig, general superintendent of transportation with headquarters here and L. G. Gallivan and M. C. Pitts, regional investigators for the interstate commerce commission spent Tuesday at the scene of the wreck and conferred at Rock Hill, S. C., today. Inspection of the scene, showed the track not to be at fault and no evidence of defective equipment was found, officials of the railway reported.

Beatitudes for Church Members. Blessed is the man whose watch keeps church time as well as business time.

Blessed is the man whose calendar contains prayer meeting night.

Blessed is the man who is faithful on a committee.

Blessed is the man who will not strain at a drizzle and swallow a downpour.

Blessed is the man who loves the church with his pocketbook as well as his lips.

Blessed is the man who leaves the critical spirit on the sidewalk.

Blessed is the man who is not afraid of spoiling the minister by a word of praise.

Blessed is the man who has patience enough as well as piety.

Blessed is the man who has grace enough to give up the end seat.—Canadian Baptist.

Lindbergh Reception Expensive For France.

Paris.—Lindbergh's visit cost France a lot of money.

The lights alone to show the way to Paris, cost a nice sum. The biggest searchlight in the world, on Mont Valerien, west of Paris, sent its rays 200 miles all that Saturday evening. All the airfield lights of northern France were kept burning long after Lindbergh landed.

The furniture bill, if it could be calculated, also would be high. At the city hall and at the chamber and senate receptions the crowds clambered wildly onto rare old tapestried chairs and divans, fragile consoles and desks and left torn fabrics and broken and mangled woodwork.

Besides this, the expense of public displays, "wine of honor" ceremonies, medals, flowers and flags was considerable.

A Comparison of Service

We are living today in a machine-made civilization. The huge steam shovel accomplishes in a few moments what it would take hours of back-breaking toil for the laborer to perform.

The progress of retailing, however, has been no less rapid and the service rendered by the one small Store of the J. C. Penney Company, 25 years ago seems insignificant compared with the service which the present 885 stores are today rendering a nation.

We are proud of our growth which is due, not to our efforts alone, but to the needs of millions of people for the kind of service we give.

May our 885 Stores play their part in the Tomorrow of Retailing with the same high ideals that began in a little country store, a quarter of a century ago.
