Them embership of the Frederick Hambricht chapter of the D. A. R. met at the home of Mrs. O. B. Carpenter on West Mountain street, last Wednesday afternoon at 3:30. Numerous baskets and vases of vari-colored garden flowers decorated the living room and sunporch.

Andrew Miller Evangelist To 2,500 State Deaf

Presbyterian Standard.

Rev. Andrew C. Miller, an educated deaf mute who was ordained by the Kings Mountain Presbytery last year as an evangelist for the deaf, has not confined his ministrations to this presbytery, but has been traveling over the state preaching to the deaf in the Presbyterian churches at Shelby, Charlotte, Concord, Gastonia, Greensboro, High

Point, Asheville, Raleigh, Rocky Mount, Statesville, Durham, and other places, and teaching Bible class also.

Prior to his ordination, on his own volition, being a "labor of love" Mr. Miller did missionary work for two years in this and adjoining counties, forming Bible classes and teaching in the sign language to those unfortunate friends who are deprived of religious instruction on account of their deafness. Most of his congregations are educated and well to do, coming to Mr. Miller's meetings in their automobiles from 20 to 25 miles. Their morals and deportment will compare favorably with their hearing friends.

Mrs. Miller has been assisting her husband in these meetings, reciting hymns in the sign language which the deaf understand and are responsive. Wherever Mr. Miller goes he is received cordially and they appreciate the interest he is taking in their spiritual uplift. They are highly pleased to have a deaf minister preach to them, one whom they can understand. Mr. Miller has a list of the names of the deaf in the state and he writes them cards informing them of his appointments. Mr. Miller is doing a wonderful work among the deaf, the underprivileged, who have been neglected by all the churches. The churches ought to hold up the hands of this

evangelist and encourage him in this worthy undertaking for the spiritual welfare of the deaf. Mr. Miller has been constrained by the Good Spirit to give his life work to this cause, realizing the needs of these people, hoping and praying he may be instrumental in doing a little to build up the Kingdom of our Lord and Master.

Mr. Miller is a native of this place and is a son of Mr. A. C. Miller, one of the elders in the Shelby Presbyterian church. There are about 2,000 to 2,500 deaf people in this state. The attendance last session at the N. C. school for the deaf children at Morganton was 321 pupils, who received religious instruction while at school.

John Matthews, Presbyterian minister of Glendale, California, who "over preached" while delivering a recent sermon, is the first church employe to apply for state industrial accident compensation in California. Gesticulating to emphasize his sermon, Matthews strained a muscle necessitating an operation.

Says Birth Control Now Too Prevalent

Asheville Gathering Hears Kansas City, Missouri, Doctor.

Asheville.—The assertion that birth control is too prevalent among the so-called upper classes and that it is being preached, to an extent, by persons not aware of its eventualities, was made here before more than 50 physicians and surgeons of international note by Dr.

George C. Mosher, Kansas City, Mo., former president of the American association of obstetricians, gynecologists and abdominal surgeons now in session at Grove Park Inn.

He questioned the soundness of the Malthusian theory which holds the population of the world may some time reach a saturation point where every inch of space will be crowded that the people will starve to death. He declared that at present the birth rate is decreasing and the death rate is increasing.

He declared there are only about one-half as many deaths among infants at birth as there were ten years ago. The expectancy of life, he said, according to insurance companies' vital statistics in 1922, is 58 years. If present betterment of conditions continues, it was predicted, an individual may expect to live 61 years by 1930, and by 2100 the average of the individual will be 94 years.
