

Beaver Dam Items Of Late Interest

(Special to The Star)
Shelby R-4—We recently organized a senior B. Y. P. U. at Beaver Dam. We are so glad to see the young people line up in this great work and manifest such interest as they are now. Miss Libby McCurry is president.

Our Sunday school is progressing nicely under the capable management of Mr. Fletcher McGinnis as superintendent.

Misses Martha Hamrick and Libby McCurry who are in school at Lattimore are at home now during the two weeks vacation for cotton picking.

Mr. and Mrs. Herbert Reynolds and two children of Houston, Tex., who are visiting relatives in North Carolina are now at the home of Mrs. Reynolds' grandmother, Mrs. J. L. McCurry.

Mrs. J. B. McGinnis and children of Charlotte are visiting relatives in the community.

Mrs. R. L. Short has returned to her home in Roanoke Va., after visiting her mother, Mrs. J. L. McCurry.

Miss Ola McCurry, daughter of Mr. and Mrs. R. W. McCurry has come to Roanoke, Va., to enter National business college. Miss Mc-

Curry was a member of the senior class of Lattimore high school last spring.

A large number of people from our community have been attending the county fair this week.

Mr. and Mrs. Robert Padgett and children of Shelby spent last week end with their parents Mr. and Mrs. A. H. Padgett.

Mr. and Mrs. Alvin Padgett of Cramerton have been at the bedside of the former's father Mr. Leander Padgett who continues sick at the home of his son Mr. A. H. Padgett.

BETTY NUTHALL THINKS AMERICAN GIRLS HAVE FREE AND EASY LIFE

(By International News Service.)
London—American girls are very free and easy, in the opinion of Betty Nuthall, the sixteen-year-old tennis star just back in England after her American tour.

"American girls seemed to be allowed what they like, and they are a clever lot," Betty told interviewers. "I think they are grown up rather too early and they powder their noses before they are very old."

"American men are awfully nice, but I don't like the way they dress. One thing is, they don't put on evening dress very often."

BUSES OF STATE CARRY HUNDREDS

News & Observer.
Buses in North Carolina carried 210,493 passengers, collected \$219,526.32 in gross revenue in July, R. O. Self, State bus director, announced. The report was the first comprehensive monthly survey of bus operations in the State obtained since the State took over regulation of bus lines on March 2, 1925.

The report showed that in July there were 87 exclusively passenger bus lines and 16 combination passenger and express or exclusively express lines in operation in the State.

Using the July figures as a basis for computation, department statisticians figured that during a year the bus lines transported in excess of 2,500,000 passengers who paid in about \$2,600,000 in fares. This is exclusive of revenue from express lines.

The first real bus lines to be organized in the State were started shortly after the State launched its great road building program, but the business never met with any

EARTHQUAKES IN JAPAN HARM CHILDREN'S MIND

(By International News Service.)
Tokio—The periodic earthquakes which shake Japan are having a pronounced effect on children who are infants at the time great shocks occur, and their minds are decidedly weakened.

This has been demonstrated by an investigation just concluded by the ministry of education, resulting in the decision to open special classes for "earthquake children," who are incapable of keeping pace in school with more fortunate companions.

The children of Tokio are hardest hit, due to the earthquake of 1923 which destroyed most of the city. More than 100 special classes are to be started this autumn in Tokio schools for children now of school age whose minds were affected by the great quake.
