

"How best can I trade in my present car for a new car?"

WHEN you are ready to trade in your present car for a new car, you naturally want full value for your present car. But most of all you want full new car value.

It will therefore pay you to consider varying trade-in allowance offers in the light of these basic facts:

- 1 Your present car has only one fundamental basis of value: i.e., what the dealer who accepts it in trade can get for it in the used car market.
- 2 Your present car has seemingly different values because competitive dealers are bidding to sell you a new car.
- 3 The largest allowance offered is not necessarily the best deal for you. Sometimes it is; sometimes it is not.
- 4 An excessive allowance may mean that you are paying an excessive price for the new car in comparison with its real value.
- 5 First judge the merits of the new car in comparison with its price, including all delivery and finance charges. Then weigh any difference in allowance offered on your present car.
- 6 Remember that you are making a purchase—not a sale. You are buying a new car and simply using your present car as a credit against the new car's purchase price.

VENUS CAUSES SENSATION IN PEKING AT NOONTIME

Peking, China.—(INS.)—The planet Venus never had so many spell-bound admirers as when it was visible in the glaring noonday sun over Peking. Located directly under the moon which was also visible in the daylight, Venus or "ai pai" as the Chinese call it, created a sensation.

Some men do not realize the danger in letter-writing, particularly to a woman, until they have done it.

Those folks who have a Christmas saving account, will soon be prepared to demonstrate there is a Santa Claus.

TRUSTEE'S SALE

By virtue of the power of sale contained in a certain deed of trust dated July 31st, 1926, and recorded in book 136 at page 351 in the office of the register of deeds of Cleveland county, North Carolina, given by R. GAFFNEY DEFEATS BOILING SPRINGS

Cleveland County Eleven Appears Strongest But Takes Short End of Score.

Gaffney Ledger.
Under ideal football conditions the Gaffney High school squad hung up another victory by defeating Boiling Springs Friday 39 to 0. The opposing team looked to be the strongest yet encountered by the local eleven, but after the final quarter Gaffney superiority was quickly asserted and the issue was no longer in doubt. Anyway it was a good game, each team putting forth its best efforts to win and each playing a square game.

The team representing Boiling Springs was indeed one of the strongest yet seen. They outweighed the locals to some extent and appeared to have a good defense until the "Indians" finally got their number in the second quarter.

Union Items, Of Recent News There

(Special to The Star.)

At the Union Sunday school Sunday the children came with bags, boxes and sheets of cotton to buy paint, to paint the church building. There will be enough and more when it all is put together for a sale.

Our beloved pastor, Rev. D. G. Washburn, preached an excellent sermon on Saturday "prayer life" and again on Sunday morning he gave his audience another able discussion from God's word.

Mr. and Mrs. Arthur Greene of Fort Mills, S. C., visited their parents over the week end.

Miss Mary Palmer a clerk at Mauney company's was with her parents Mr. and Mrs. J. J. Palmer of Polkville during the week end.

Miss Grace Greene a member of the senior class of Shelby high school was at home Saturday and Sunday.

Misses Evalie and Vella Blanton visited Miss Ruth Mauney Sunday afternoon.

Mr. and Mrs. A. D. Harris and children were dinner guests of his parents, Mr. and Mrs. J. S. Harris on Sunday.

Mr. and Mrs. E. Y. Blanton and daughter, Jean, Mrs. J. O. Blanton and Mrs. Goode called at the home of Mr. and Mrs. Will Weather Sunday afternoon.

The ladies of the church are giving a box supper in the school house Saturday night. There will be fun for everybody. Girls be on hand early with your boxes and the boys will be there to buy them. Everybody is invited.

Bird's Food Important

Choice of food by a bird usually is the most important factor in its relation to man. One of the reasons for importing the sparrow was to have it eat dropworm, a shade-tree pest which spun with its filk on threads among pedestrians. The drop worm is no longer a pest in cities, and entomologists give sparrows the credit. Not only this pest but almost every injurious insect we have is eaten at times by this ubiquitous alien.

OTHER WOMEN SAY RUTH ELDER WAS FOOLISH IN TRIP

Sharply Criticized; Good Typist Of More Service To Humanity Than Miss Elder.

New York.—Some American women think that Ruth Elder was "very foolish" to risk her life in the transatlantic flight, and of "much less service to humanity than a good typist."

While conceding the courage of the pretty aviatrix, Dr. Katherine E. Davis, sociologist, called her adventure "a mistaken thing for a young girl to do," Mrs. Franklin D. Roosevelt, civic leader, criticized the needless risk involved, and Winifred Sackville Stoner, founder of the League for Fostering Genius, expressed her preference for good typists to Ruth Elders and Gertrude Ederles.

Dr. Davis said: "The only time anyone should undertake a thing like jeopardizing the happiness of dear ones is when he or she has a definite chance of accomplishing something."

"There is no woman alive today that I know of equipped as to physical makeup and past training and experience for such a flight."

"Gertrude Ederle is another example," she said. "Just as I think it insane to swim across the channel when there are ships and airplanes to take you across, so I think it foolhardy to attempt a flight across the Atlantic when nothing whatever will be accomplished by it."

"Miss Elder came out boldly and said she cared nothing about scientific advancement, but wanted to be the first woman to fly across the Atlantic. If she had wanted to show that a woman was capable of accomplishing what a man had accomplished, or had wanted to show that a woman could fly alone like Lindbergh, that would have been laudable."

"A fast, accurate typist does more for the community than a dozen Gertrude Ederles or Ruth Elders."

Gold Mining May Start At Lenoir

Surveys In Old Nublung Mine Reveal Encouraging Signs Of Gold-Bearing Ore.

Lenoir.—Surveys conducted in the old Nublung gold mine, near here, by engineers in the employ of C. K. Brown, of Orlando, Fla., and C. C. Ricker, New York, who hold options on the property, disclosed encouraging indications of gold bearing ore and dirt, it was learned.

Mr. Brown and Mr. Ricker met here last week to go over the property with the engineers and receive their report. Following this report it is understood here that Mr. Ricker left for New York to meet with Dr. M. L. Nile of Rumford, Maine, owner of the property and to exercise the option on the property.

The engineers and option holders did not divulge their plans. However, reports have leaked out that they were encouraged by the investigations and will buy and begin the operation of the property. Modern mining equipment, these reports say, will be installed and the mine will be operated on a big scale.

It was reported here that Mr. Ricker or Mr. Brown or both of them are expected to return to Lenoir within the next few days to begin carrying out their plans for developing this property.

The Nublung gold mine was operated years ago. During its days it was considered one of the best paying mine properties in the state.

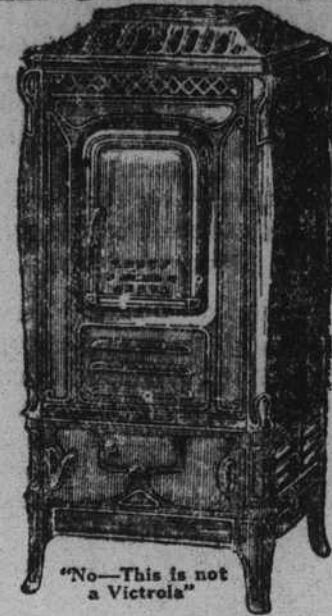

The lead was lost and with the equipment then used it could not be operated at a profit. The separating of the free gold was not so well developed at the time and the mine was abandoned.

Since the decline of gold mining in the west there has been a tendency to rework the mines of this section with some modern machinery and equipment which it is believed will make it possible to carry on a profitable operation.

CATAWBA SCHOOLS MAY TRY NEW PLAN

Newton, Oct. 16.—Supt. J. A. Capps, of the Catawba county schools, held his first county wide teachers' meeting here Saturday. A large number of teachers were in attendance, and all appeared enthusiastic over the year's work they are just beginning.

Superintendent Capps then took charge of the meeting and urged the teachers to be accurate in reports sent to his office. He then announced that all the schools in the county, as far as practicable, would use uniform song books this year. The big surprise of Mr. Capps' remarks, however, was when he announced that all eight month schools would likely begin about the first of August next year and after running for six weeks would be suspended a few weeks to enable the children to help pick cotton and gather the other crops. As a result of this ruling, he asked the teachers to plan to attend only the first summer school next summer.
