### Judge Webb Lauded By Charlotte Bar

Charlotte—The Charlotte Bar association, meeting Monday morning in the Mecklenburg Superior courtroom, adopted a resolution commending Judge James L. Webb, of Shelby, who Saturday ended a term of court here.

The resolution, which was offered by John A. McRae and seconded by T. W. Alexander, commended "both the private and official life" of Judge Webb, declaring that as a private citizen he "is from every standpoint a desirable man" and "as a judge he is able, fair, wise, courteous and big-hearted." The resolution extended to the judge "thanks and deep appreciation for his uniform courtesy and consideration," and stated that "the Charlotte bar would be more than pleased to have Judge Webb hold a term of court in the new courthouse" some time during the spring of 1928.

### Beat Move to Oust Mayor.

New Bern, Dec. 6.—A motion offered tonight by two city aldermen at a monthly board meeting, calling for the resignation of Mayor Albert Bangert, because of alleged intoxication recently was defeated by a vote of eight to two.

Paid advertisements in local news papers today had called together all persons "interested" in the betterment of the city government. The movement to demand the mayor's resignation, however, was nipped in the bud.

### 101-HOUR AUTO DRIVE ATTEMPTED IN GASTON

Gastonia, Dec. 6.—Charles Young started at 12:30 today what he hopes to make a world record automobile drive of 101 hours.

He started from in front of the county courthouse, where a large crowd had gathered to watch him make his start. He is handcuffed to the wheel and is accompanied by a second person at all times. If he succeeds in driving 101 hours continuously without sleep he will have broken a world's record. He will make no stops except at long intervals for gasoline.

### Farmer in Lincoln Goes Good On Farm

(Lincoln Co. News)

W. M. Hoyle, prominent farmer living west of town, produced on his farm the past season five bales of cotton from four acres, and he says that his cotton got a late start due to dry weather early in the season. With a favorable season he might produce two bales to the acre, who knows.

Mr. Hoyle used a thousand pounds of guano to the acre and also lime or a substitute. The boll weevil did not bother with this man's cotton, or if they did they eat less than half of it. Hard work and intelligent use of fertilizers seems to be a winner.
