

**No words  
can tell you**

WORDS are worthless for describing the amazing performance of the new Portable Victrola, number Two-fifty-five. To say that its tones are rich and deep, its volume as large as life itself, is not enough. You must really hear the instrument yourself to appreciate its startling powers of reproduction.

Indestructible steel cabinet covered with leather-finished fabric. Detachable winding-key at a convenient angle. Records stop playing automatically.

You must see this great little instrument to realize its value. Visit us soon and hear it play the latest Victor Records.

**CHIROPRACTIC FOR STOMACH TROUBLE**

Where the Gastric Nerve leading to the stomach is pinched (see second nerve in cut) you are having trouble not in your spine but with the function and activity of the gastric cells in the stomach where the pinched nerve ends. Chiropractic spinal adjustment is absolutely the only thing that will relieve this pressure on the stomach nerves allowing free flow of nerve force from the brain down the spine to the gastric cells lining the stomach. This increase the activity and output of gastric juices relieving your indigestion and stomach trouble. Chiropractic adjustments also relieve the cause of Constipation, Tonsillitis, Flu, Pneumonia, Kidney and Bladder Trouble, Nervous Headache, Neuritis and numerous kinds of Rheumatism Sciatica, Lumbago.

**2,000,000 CARS AND GOING STRONG!**

**JULY** marks the production of the two-millionth automobile by Willys-Overland. This event happily coincides with the culmination of the greatest 6 months in the company's 20-year history.

Production during the half-year just completed greatly exceeded the entire output of 1927. This unit volume now makes Willys-Overland the industry's third largest producer.

The reasons are plain:—

In the 4-cylinder Whippet the public is getting a light car value absolutely without parallel. Powerful engine; BIG 4-wheel brakes; silent timing chain; full force-feed lubrication, and many other features.

The new Whippet Six is the world's lowest priced 6-cylinder car. Demand has always exceeded production. It is equipped with 7-bearing crankshaft, Invar-steel pistons, and silent timing chain.

The Willys-Knight Standard Six offers the exclusive advantages of the patented Willys-Knight double-sleeve-valve engine at the lowest price in history. The Special Six and Great Six complete this masterly line of motor cars.
