**LITTLE STARS PERSONALS**  
 Home Folks You Know On The Go

**Remodelling**—Mr. Lester Herron, prominent Grover merchant is remodelling his home there.  
**56 Years On Engine**—Mr. I. M. Roberts, of Roswell, Georgia, the oldest engineer on the Southern in point of service, spent last week with his brother, Mr. R. P. Roberts at Grover. Mr. Roberts has been in the employ for 56 years and an engineer for 51 years.  
**Stroup's Condition**—The condition of former county treasurer, Rush Stroup at noon was still serious. There seems to be a slight improvement in his general condition, but his pulse was much lower this morning and his night's rest was not so good.  
**Error Corrected**—The Star greets Paul Woolton, and announces its regret that it should have been guilty of making it appear the popular merchant would sell \$1.85 dresses for \$9.75. The block in the ad should have read that \$14.75 quality dresses were reduced during the July clearance sale to \$9.75. The paper hopes this item will in a measure atone for the very annoying mistake.  
**A Shop Radio**—B. W. Hawks, of Pendleton's this week had an idea. His friends say he gets one every so often, and gets very busy. He proposed to rig up a sending and receiving radio set right there in the store, and communicate from one end of the building with the other. The result was a speaker before the microphone in the rear of the establishment could be heard 30 feet away through a receiving set, over the same wave length and with the same far-away intonation as though he were in Kalamazoo or San Francisco. The result was interesting—not to say a little startling.

Mrs. R. L. Stowe and daughter, Mrs. W. J. Pharr of Belmont, visited Rev. and Mrs. J. T. Denny Wednesday in Grover.

**COTTON MARKET**  
 (By Jno. F. Clark & Co.)

Cotton was quoted at noon today on New York exchange:  
 July 21.53; October 21.79, yesterday's close July 21.69; October 21.92.  
 New York, July 13.—Mostly cloudy over south last night, maximum temperatures at Abilene 100. Forecast, Tennessee, Carolina, Georgia and Mississippi showers today and tomorrow. Arkansas, Oklahoma, East and west Texas fair.  
 Moderate business in Worth St. British exports of cotton piece goods for June were 135,000,000 square yards less than May and 42,000,000 square yards less than June last year. Decline yesterday due mostly to a technical adjustment after the rapid rally following the acreage report. Need of rain in west Texas is looming up daily as more of a bullish factor while continued rains in east are unfavorable. Looks like the weevil may take a heavy toll east of the river later on.

**KILL IDIOT BY GAS IS PLEA OF SCIENTIST**

Asheville.—"At the county home there is an idiot girl, who has been confined in a cell for most of the 17 years she has been there," declared Dr. A. G. Barry, University of Wisconsin criminologist, after a tour of four Buncombe county institutions with a group of 75 students from Asheville normal summer school.  
 "May I suggest to the officials of Buncombe county," he continued, "that as a remedy for this bit of barbarism one would not expect to find outside of the dark ages, that the idiot girl be turned over to a physician instructed to give her a hypodermic or lethal gas and release her from the misery Buncombe county has subjected her to for the past 17 years."

**BOY SWIMS HIGH ROCK LAKE AS STORM RAGES**

Lexington.—Tracy McMillan, Lexington high school athlete and Boy Scout leader, has succeeded in swimming High Rock lake at a point where it is several miles wide.  
 He was accompanied part of the way by Nat Hunt, Davidson college football player, in a boat but a storm caused the separation of boat and swimmer.  
 McMillan stuck to his task when rain prevented him seeing either shore until he pulled to land, after being in the water about an hour and a half.  
 Judging by the higher fees, the physicians are trying to heel themselves these days.—Shoe and Leather Reporter.

Kinston.—The 18-month-old son of Mr. and Mrs. Leslie Johnson is suffering from wounds on the head, arms and body inflicted by a rooster. The fowl's spurs narrowly missed the infant's eyes and ears.  
 The attack occurred at Sandhill, where the parents were visiting. Persons who heard the baby's cries drove the rooster off after it had sunk its spurs into the victim's flesh seven or eight times.  
 Mr. Johnson is deaf and dumb and Mrs. Johnson is deaf.
