Cult Ball Outfit Plays At Spindale

House Of David Team, Long-Haired Boys, Play There On August 1.

The House of David baseball team will play the Spindale baseball outfit at Spindale Wednesday afternoon, August 1, it is announced, the game to begin at 4 o'clock.

The House of David team is made up of men belonging to the House of David cult—a religious cult that does not believe in cutting the hair and the members of the team who will play have long black beards, and long, flowing hair. Not only is it a peculiar team in appearance, but it is one of the best independent baseball teams in the country. Several members of the long-haired team have had the opportunity to play major league baseball but have refused to do so. On the Spindale team are such well known stars as Pete Deaton, Pop Simmons, Hager, and others—most prominently known as college or semi-pro players in this state.

The House of David Team is barnstorming the county, leaving the headquarters of the cult early in the summer.

THE PROGRESS OF CHIROPRACTIC

By merit alone Chiropractic has grown from an idea in the mind of one man in 1905 to the second largest health profession in the world.

There are now approximately 25,000 practitioners, more than seventy-five schools without about 6,000 students. Thirty-nine state governments have recognized the science as distinct and different from anything else on earth.

This growth in less than twenty-five years has been, not only without the aid of other professions engaged in getting the sick well, but in spite of their utmost efforts to prevent.

Chiropractic has never had a single dollar of endowment from state or national governments. It has overcome the prejudice of the public, the opposition of other professions intent on its extermination, and adverse laws in every state in the union.

It has recruited its patients from among those upon whom other methods failed, and with these failures of other methods upon which to prove its efficiency it has grown like a green bay tree.

Comparatively Speaking

At last John had found that bourne from which there is no return.

Through the medium of a clairvoyant the widow sought to communicate with him. After securing proper connection, the following conversation ensued:

"John, are you happy?"

"Yes, Mary, I am very, very happy."

"John, are you happier than you were when you were here with me?"

"Yes, Mary, I am far happier than I was with you." "Oh, John, then heaven must be a wonderful place." "But, Mary, you are mistaken. I am not in heaven!" And that reminds us—
