QUOTES HOOVER ON PROHIBITION

Republican Nominee's Views Of 1918 Are Given In Speech At Tyrone.

Tyrone.—Former Congressman James P. Byrnes, of Spartanburg, speaking under the auspices of the national Democratic committee here said that while many sincere prohibitionists disliked the attitude of Governor Smith on the prohibition question, there was not so much difference in the true views of the candidates on the subject, as would justify a Democrat in deserting his party.

He said: "It is difficult to get drunk on 2 3-4 per cent beer." That sounds like the statement of Governor Smith. As a matter of fact it is the language of Herbert Hoover, uttered by him in 1918 in an effort to defeat national prohibition. There was pending in the house of representatives what was known as the food control bill. Mr. Barkley of Kentucky, now senator from that state, offered an amendment prohibiting the use of food stuffs in the manufacture of alcoholic beverages. By this amendment it was sought to establish national prohibition before the adoption of the 18th amendment. Hoover opposed it. It was adopted by the house. While the bill was pending in the senate Hoover gave out a statement which was inserted in the Congressional Record on June 6, 1918, at page 8034, containing the following language:

"If the American people want prohibition, it should be prohibited by legislation to that end and not force the food administration to the responsibility of an orgy of drunkenness. It is most difficult to get drunk on 2 3-4 per cent beer; it will be easy enough if we force a substitution of distilled drinks for it."
